A note from our Executive Director:

It’s been a long, strange year...

As we enter December, I am hopeful that the winter period of hibernation will be followed by an abundant and “in person” spring. It has felt a bit disjointed not having you on-site taking classes, sharing a meal, laughing, and camping it up. The staff is working to create new hybrid programming in January, an amazing first step forward--and for some may be a new way to join programming in the future.

Our community has done a great job keeping one another safe and taking personal responsibility to mask up, vaccinate, and booster. Our vigilance will pay off soon and I cannot wait to see you!

World AIDS Day is December 1st and was first celebrated in 1988. I know many of us have had friends and loved ones impacted by HIV/AIDS. On that day, please join me in a moment of silence to remember and be grateful for all those we lost and those in our lives now.

This month there are many holidays celebrated from different religions, spiritualities, and cultures. My family’s culture celebrates the solstice at Newgrange in Ireland on December 21st. This year, I am creating a new grounding celebration and am excited to include the great Bay of San Francisco.

Happy holidays to you and yours this year!

We will miss you, Jerry!

Openhouse mourns the passing of community member, Jerry Greenstein. On October 19, 2021, 83-year old Jerome (“Jerry”) Harris Greenstein passed away peacefully at his home with his beloved husband, Fred Trujillo, by his side. Jerry and Fred regularly attended Rainbow Lunch, Men’s Drop-in Support and Openhouse celebratory events like Fall Feast and the LGBTQ Senior Prom. Born in Framingham, Mass., Jerry moved with his family to California in his teen years and spent most of his adult life in San Francisco--and most of those years partnered with Fred. Together they loved to travel, take cruises, go to gay pride parades, hunt for bargains, and attend Openhouse and SF cultural and political events. They celebrated their 44th anniversary by getting married on September 15, shortly after Jerry's cancer diagnosis. We will miss you, Jerry.

What is a hybrid program?
Openhouse is excited to bring back a few of our small programs at 75 Laguna in the new year! In order to continue following COVID safety guidelines and ensure that community members who aren’t ready or able to return can still attend programming, activities will be done through a new process called “hybrid programming”! Hybrid programming is a combination of having both in-person and Zoom participants attending a program at the same time. Through the use of special technology, participants attending on Zoom will be able to see the entire room, where everyone is sitting, and be able to see each person talking up close.

For attendance in person, there is limited space and participants will need to wear masks and physically distance.

Programs that are hybrid will be listed as so in the newsletter. Please reach out with any questions prior to events! This type of programming is new to us and we are excited to figure out the most effective, accessible, and safe ways to offer programming through the continually changing landscape of the pandemic.
Did you know?

**Winter Holidays are a festival of lights!**

It all began thousands of years ago with celebrations around the arrival of the Winter Solstice—the coming of winter on December 21 and 22. The event was marked by the lighting of fires to ward off the cold, dark days ahead.

Our holiday season encompasses three major celebrations: Chanukah, Kwanzaa, and Christmas. Although their origins are quite different, they share two elements in common: the time of year and the use of lighting. Christmas and Chanukkah are religious holidays and Kwanzaa is a celebration of African American culture, yet the creation of light is at the heart of all three. The Chanukkah “menorah” is lit for eight days and the Kwanzaa “kinara” for seven. The traditional Christmas holiday with its brightly lit homes and streets runs for twelve days, although nowadays the actual time varies greatly.

May we all find some light this winter. Happy holidays to you all!
