Since 2017, The Playwrights Realm has made a public commitment to be an equitable, inclusive, anti-oppressive, and anti-racist organization. We want to reflect the full spectrum of humanity through the artists we support, the stories we tell, the staff and board of the company, and the audiences we reach.

In 2020, building on the work we'd already have been engaging in and further galvanized by the We See You White American Theatre movement, we conducted a full internal review to produce this document of next steps (released in January of 2021). We've committed to periodically reviewing and updating this document to track our progress and articulate our next steps in a public and transparent way. (To read more about Our Values and Methodology, please visit playwrightsrealm.org/mission-values.)

In early 2022, we completed a company-wide review analyzing the entire plan, including what we have succeeded at, where we need to put in more work and what goals we want to add; this updated document is the result. To make it easy to see what has changed we've bolded initiatives that have made progress (i.e. changed category), underlined initiatives that are new additions to the document, and put in italics parts of an initiative that, based on the work we did in 2021 to implement them, has been substantively changed and/or reworded. We are energized that since the publication of our first report we were able to add 32 initiatives into our Implemented and Ongoing Initiatives section and we are recommitting ourselves to the goals we were unable to achieve (the ones in the Working On column which are not bolded, underlined, or in italics).

**Helpful Definitions:**

**BIPOC:** Black, Indigenous, and/or People of Color

**BPOC:** used when a known group does not include an Indigenous person, as to not create a false sense of inclusion in a group that does not actually have Indigenous representation

**TGNC:** Transgender and Gender Non-Conforming

**Ableist:** discriminating against individuals with disabilities

### Notes

¹ As of December 2021, within our organizational staff, 60% of our FT, 75% of our PT staff, and 67% of our independent contractors self-identify as BPOC.

² Importantly this is a minimum standard; we usually achieve much more. We acknowledge that the “Rooney rule” is controversial, but it has produced positive results at The Realm. As a company with majority BPOC staff we want to support them in running hiring processes with independence, while making sure Our Values are being centered.

<tr>
<td>Center BIPOC Playwrights in Productions and Program Cohorts</td>
<td>Acknowledging that a cisgender white woman serves as our AD, we focused on diversifying the voices in our artistic department and reader pool, who serve as gatekeepers during season selection. Our producing model is not based on ticket sales, so The Realm has the freedom to take risks on a variety of plays. Focusing on choosing playwrights, not just specific plays for our programs—given the small size of our cohorts they will vary yearly, but our gatekeeper role gives us some responsibility for what the face of American Playwriting looks like, and we take this very seriously. We will not select any majority white or male cohorts.</td>
<td>Continuing to increase the number of our productions that come from our open submissions as this is the most equitable method of access to The Realm. Going beyond simply having majority BIPOC program cohorts by focusing on specific communities, barriers, and people and working proactively to counter White Supremacy in all its forms. Counter the suppression of Native voices by doing the work to ensure they are present in our future cohorts.</td>
<td>Increase even further the representation of BPOC playwrights in our full productions. Pay playwrights for attending rehearsals. Work with an Indigenous playwright and produce our first play by an Indigenous playwright.</td>

8 As of December 2021, 2 out of 3 of our artistic staff identify as Black, 1 out of 2 of artistic department independent contractors identify as BPOC, and 53.01% of paid professional readers for 21/22 season identified as BIPOC. (45.78% identified as white and 1.2% didn’t respond to survey.)

9 In the past 5 seasons 69% of the playwrights who’ve gone through our development programs identified as BPOC, 18% identified as white and 13% did not respond to surveys.

10 This is what we feel comfortable guaranteeing as a baseline for every season, but it is by no means meant as the goal. We carefully track what we are doing and have successfully achieved a much higher multi-season track record (see footnote above). We also are trying to leave room for working with other communities like the TGNC, Disabled, and Deaf who might fall into any racial category.

11 As of 2021, 53% of the playwrights we’ve produced originally applied to our open submission programs.

12 Of the past 5 seasons, 67% of our full productions were written by BPOC playwrights (based on self-reports), 17% by white playwrights and 17% did not return their surveys.

13 As with Playwright Cohorts (see above) our standards for designers are meant as a minimum and we push to achieve much more than this. With designers we also want to balance the importance of artistic freedom for the (often BPOC) playwright and director we are working with to be able to pick their collaborators. For instance, for our last two NYC productions primary designers identified as 50% BPOC and 75% BPOC (The remainder for both productions is a mixture of those who identify as white and those who did not respond to survey).
