All About Survivors is an organisation devoted to - you guess it - survivors of human trafficking and slavery. These next two sentences will tell you about our overall organisation. It should include what type of organisation we are (e.g. business, charity, etc) and a link to our website.

We are looking for someone who can give input on a specific project or program. This paragraph will then describe the project and what the position will be required. For example, the consultant will review All About Survivors’ existing training curriculum on anti-slavery and help develop new curriculum to ensure that all of our employees are well informed. The curriculum is provided to over 100+ people when they start their induction as an employee. In this role, you will work with two other team members, have desk space and a computer on-site.

**Responsibilities/Deliverables:**

- Name what the person will be doing in more detail

- List any project deliverables that must be completed by the end of the consultancy

**Consultant requirements:**

- Include minimum requirements such as English language proficiency

- Preferred previous work experience if any

- Preferred subject matter expertise (e.g. anti-slavery awareness raising, forced labour, etc.)

*People with lived experience are encouraged to apply! Formal degree not required, as long as you are able to follow instructions, communicate effectively with team members, and read/write in English.*
