

Strategy Logic Model (JCHC Senior Share Example)

STRATEGY	ACTIVITIES	ASSIGNMENT	TIMEFRAME	OUTPUT METRICS	MID-TERM OUTCOMES
<i>What do we do?</i>	<i>How will we do it?</i>	<i>Who will be responsible?</i>	<i>When will we implement?</i>	<i>How can we track the success of our work?</i>	<i>How will we know we're moving toward our long-term outcomes?</i>
<ol style="list-style-type: none"> 1. Establish Senior Share distribution centers in 4 communities 2. Complete a survey in each community – need to have 50 eligible people at each site 3. 50% of the food distributed is fresh produce 	<ul style="list-style-type: none"> • Recruit site representatives interested in hosting Senior Share • Do surveys of seniors • Train orgs and assess the viability of running the program • Develop teams of volunteers and train • Organize once a month distributions 	<ul style="list-style-type: none"> - Burleson Senior Citizens Center & Cleburne - Joshua Faith Center - Alvarado needs support - Mary Easton from Coalition is helping recruit needed stakeholders and support them 	<ul style="list-style-type: none"> - September is goal it have first distribution in at least one community - August – have completed organization meetings to determine eligibility 	<ul style="list-style-type: none"> - Number of seniors surveyed - Number of communities implementing - Minimum of 50 individuals per site receiving food 	<ul style="list-style-type: none"> - General metrics show that after 1 year seniors are reporting a decrease in food insecurity - Seniors are able to afford their medications and are self-reporting as healthier (supported by major health provider in the county)
