

REIMAGINING WELLNESS

SPONSOR FREE THERAPY!

CHARITY GALA & AUCTION

WTFF is on a mission to eliminate barriers to Black Healing!

MESSAGE FROM THE FOUNDER

ASHLEY MCGIRT, MSW, LICSW

The Washington Therapy Fund was birthed from my belly and the wombs of so many others. I was inspired to create the WA Therapy Fund after noticing that national funds quickly became utilized. Many of my clients were waitlisted for months as the need was too high. I sought to create a state specific fund focusing on Washington, the state that birthed me, and California the place that has become a second home to me!

MAKE THERAPY FREE! BUT NOT AT THE EXPENSE OF THERAPISTS!

The Washington Therapy Fund Foundation was founded in an effort to eliminate some of the barriers to Black healing. In direct response to the incessant police brutality and anti-Blackness the WA Therapy Fund Foundation was birthed.

Therapy is expensive and insurance plans often offer low reimbursement rates for clinicians compiled with student loan debt and business costs. Capitalism and other oppressive systems can have profound impacts on our ability to cope and maintain healthy work/life balance, thus can even create and reinforce negative self-talk and messaging. This can contribute to depression, anxiety, and suicidality. Let's alleviate this financial burden for our Black community!

Sponsorship packages
