For the safety of our staff, volunteers, and visitors USS SLATER will adhere to the following guidelines while following the governor’s recommendations for public safety:

- All employees, volunteers, and visitors must wear a mask when within 6 feet of another employee, volunteer, or visitor that is not in their household.

- If a SLATER volunteer, staff member or visitor is diagnosed with COVID-19, the entire ship will be closed until the ship can be thoroughly disinfected. That person may return to the ship only after a negative COVID-19 test plus 14 days. USS SLATER will notify the state and local health department of any positive COVID-19 results.

- High traffic surfaces, (door handles, ladder railings, countertops, etc.) restrooms, and interactive exhibits will be cleaned and disinfected often throughout the day.

- Restrooms will be disinfected throughout the day and will be stocked with hand sanitizer.

- Hand sanitizer can be found in each restroom, inside the ship’s store, and throughout the tour route aboard the ship.

- Tour groups will be small.

*We are committed to safety and are appreciative that you are here to support USS SLATER! Thank you!*
