---

Any headway on a depopulation statement (justified or something similar – really whatever you can get) from AVMA?

I agree, Lisa. It is wordy, but it's supportive of the situation and I agree, coming from AVMA, it's going to take a veterinary perspective rather than a producer perspective and I think that's what you want for producers. It will provide the professional support for what we are likely going to have to do.

**Subject:** RE: AALC\_New AVMA webpage\_COVID-19 impacts on food production medicine

Just did and it is pretty barren – lots of words and their attempt at multi-species. They have AASV info up but nothing directly from ‘industry’ otherwise. I am not surprised as AVMA routinely does NOT list industry resources.

**Subject:** AALC\_New AVMA webpage\_COVID-19 impacts on food production medicine

Morning AALC,

AVMA has posted a new webpage, [COVID-19 impacts on food production medicine](#). It touches on slaughter plant closures, impacts on the farm and links to some depop info as well.
