¹ Commercial = WOAH Poultry; This includes NPIP commercial, independent commercial, or backyard poultry.

² Backyard/Pet Bird = WOAH Non-Poultry (not commercial). There are a few premises designated as pet bird Non-Poultry.

³ Surveillance zones were in place as a requirement for Non-Poultry premises prior to November 15.

⁴ Indemnity estimates for animals do not include depopulation, disposal, virus elimination costs, or materials destroyed.

⁵ Commercial and Backyard Poultry premises have control zones in place. Backyard Non-Poultry premises have surveillance zones.

⁶ Dangerous contact designates a premises with likely exposure or strong epidemiological links to an infected flock. The flock is depopulated based on the potential exposure or link rather than waiting for testing.
