

## EXTERNAL RX HISTORY

A tool for viewing multiple prescriptions of the same medication, the External Rx History tool can be invaluable in assisting with patient care.

From within the patient's chart, select the orders tab to be able to view the External Rx History

Nurses can see this from within their clinic intakes as well when completing their medication list validation

Pref1			digoxin (digoxin 0.25 mg oral tablet) Prescribed 1 tab ( 0.25 mg ), PO, Daily, # 90 tab, 3 Refill(s), Route to Pharmacy
			misc medication (Synthroid) Prescribed 1 tab ( 50 mcg ), PO, Daily, # 90 tab, 3 Refill(s), Route to Pharmacy
OF*			sildenafil (sildenafil 20 mg oral tablet) Prescribed 1 tab ( 20 mg ), PO, BID, # 180 tab, 3 Refill(s), Route to Pharmacy

By selecting the RX Plans button, you can also see if the patient has compatible funding in the system. If they do, the system will now show you what medications are on or off formulary for them.

Green = Preferred, on formulary  
White = Covered, but not the cheapest  
Red = Off formulary, payment will most likely be out of pocket
