DESIGN MEETS VALUE

# MEASURING GUIDE

CREATIONS CABINETS, 7730 HUDSON ROAD, SUITE 50, WOODBURY, MN

# MEASURING GUIDE

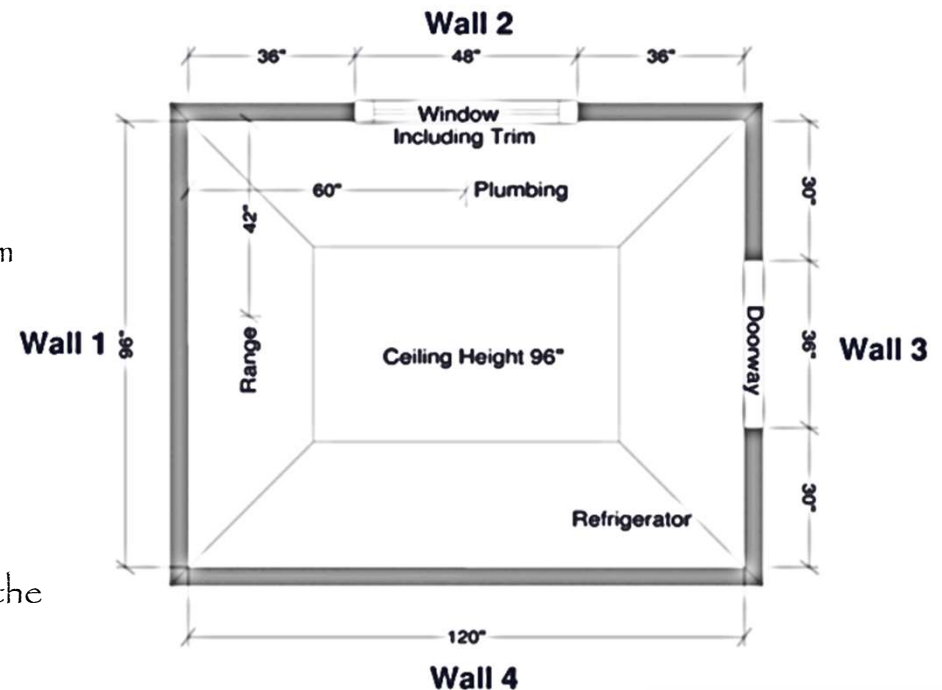

## JUST A ROUGH MEASURE IS ALL WE NEED TO GET STARTED

**FIRST:** Record the overall length of each wall. Label walls, windows and doors. Include the trim in your door and window measurements.

**SECOND:** Check the ceiling height in a couple locations and record.

**THIRD:** Measure the location of the range and refrigerator, from the nearest wall. Also, note the center of your plumbing from the nearest wall.

**FOURTH:** Send some pictures. It really helps the designers to see pictures of the space.

\*Be sure to include any major structural features or obstacles such as radiators.

# MEASURING GUIDE

\* Drawing does not need to be to scale or on graph paper, just note your measurements

## TELL US ABOUT YOUR PROJECT
