

TRACING THE TRANSATLANTIC

Relive a Golden Age of Travel

In June 1939 the first Pan Am World Airways Transatlantic flight with passengers took place. The Southern route departed from New York, with stops in Bermuda, Lisbon and ending in Marseille. The Northern route flew between New York, via New Foundland and Foynes (Ireland) to England. These pioneering flights were incredible as they connected the U.S. East Coast with Europe and were as glamorous as the experience akin to the days of sailing ships crossing the Atlantic. Pan Am was a pioneer and its founder Juan Trippe was a visionary who left no stone unturned to forge an exciting aviation future. Pan Am Airways remains one of the most admired airlines in the world.

Join us as we take to the skies to trace these legendary flight routes. Relive the excitement of a bygone era of flying and celebrate the famed service Pan Am was known for, which turned a journey into an extraordinary experience.

The Museum includes a full size replica of the B314 Flying Boat, the type that was once operated by Pan Am. Board the Pan Am Clipper replica and think about flying onboard such an aircraft, well before the jet age.

Irish coffee was also created in Foynes, specifically to provide a “lift” to tired Clipper pilots! Hollywood actress Maureen O’Hara has a strong link to Foynes and was married to Brigadier Charles Blair, who used to be a Pan Am pilot.
