SUMMER COGNITIVE INTENSIVE PROGRAM
AT EATON ARROWSMITH

JUL 5 – AUG 12
MON–FRI
9:00AM-3:00PM
AGE 10 - ADULT

EXERCISE YOUR BRAIN THIS SUMMER!

What if you could make better decisions and understand conversations, concepts, and what you read more quickly and in more depth?

What would life be like if you could focus more easily and learn without having to use so much energy?

Why not find out?

Students in this program improve their ability to:

- understand concepts
- study and do well on tests
- problem-solve
- participate in group conversations
- follow instructions in class and at work
- complete projects faster
- and understand jokes and sarcasm
The Arrowsmith Summer Cognitive Intensive Program is for students (ages 10+) and adults who want to be confident learners for life. In this six-week program, students strengthen the parts of their brains responsible for executive functioning, working memory, logical reasoning (decision-making), comprehension, and processing speed.

**GIVE YOUR BRAIN THE BOOST IT NEEDS TO REACH YOUR POTENTIAL THIS SUMMER!**

"Can't stress enough that we can see marked improvement in him from his time with you this summer....especially in his reading!"
- John & Fabienne Wade, EA parents, Redmond, Washington, USA

“2018 was the second time we travelled from New Zealand to Canada for Tallulah to spend 6 weeks full time at Eaton Arrowsmith. Tallulah is a much happier, more positive student. There is a significant improvement in levels of engagement and concentration. Tallulah seems to have more common sense than previously. She has always been independent but now she is wanting to achieve things entirely on her own. She is so much happier."
- Raquel Smith, EA parent, Vancouver, BC, Canada
