ARROWSMITH COGNITIVE PROGRAMMING

COGNITIVE ASSESSMENTS
Upon enrollment, students will receive a full cognitive brain profile (Arrowsmith Assessment), which assesses the student’s baseline levels in a range of cognitive areas. Progress is tracked daily, and reports are provided throughout the year. Another cognitive assessment is provided at the end of the school year to assess change in underfunctioning areas and plan for future programming.

COGNITIVE CHANGE
It takes time and dedication for the brain to strengthen and grow neural pathways! Research shows that with repeated stimulation, the most significant cognitive change starts to occur after 9 months, with some noticeable cognitive change starting as early as two or three months.

CUSTOMIZED PROGRAM
Based on a student’s assessment results, a customized program is built for each student to target their individual cognitive weaknesses. This is typically comprised of up to six cognitive exercises per school year.

Kids and teens work on these exercises for six blocks a day, in addition to math, language arts and physical activity.

TRANSITIONING BACK TO MAINSTREAM SCHOOL / THE WORKPLACE
Program length is individualized to each student, based on their rate of progress. On average, students spend 3 – 4 years in the Arrowsmith program, however significant cognitive change can be seen as early as nine months. Our goal is to help students strengthen their brains and transition successfully back to full academic programs or into the workplace.
ADDITIONAL OFFERINGS

SOCIAL & EMOTIONAL SUPPORT
Our schools offer a safe, inclusive environment where students can relate to others facing similar struggles and challenges. Our teachers use Dr. Marshall Rosenberg’s Non-Violent Communication method to communicate with students in a way that is respectful of their emotional needs and helps foster a sense of belonging and community.

COMMUNITY & SPIRIT
Each school offers a variety of activities during the school day to foster community, spirit and friendship among the students. This can range from field trips to themed spirit days like ‘Crazy Hair Day’ and ‘Backwards Day’. We are always working hard to find new and exciting ways to create a fun, inclusive and motivating environment for students.

PHYSICAL EDUCATION (FOR KIDS AND TEENS)
Physical exercise plays an important role in a student’s physical, emotional, social and, of course, neurological development. For this reason, physical activity is incorporated into the daily schedule. We also take our students outside for 30 minutes every day at lunch to get fresh air and exercise.

MATH & LANGUAGE ARTS (FOR KIDS AND TEENS)
EA follows the British Columbia and Washington State curriculum for math and language arts. We meet students at their current academic level with the goal of reaching grade level to transition back to mainstream schools.
### FULL-TIME PROGRAM | 10 MONTHS: 8 PERIODS PER DAY FOR KIDS AND TEENS, 6 PERIODS PER DAY FOR ADULTS

</table>

### Full School Year
- Sept 2022 – Jun 2023 (breaks vary by school)
- Pay $5,520/year upfront to secure your class day(s) and times before the school year starts.

### Month-to-Month
- Flexible registration year-round
- Pay $840/month
- Cognitive change takes time and dedication. The most significant cognitive change starts to occur after 9 months, with some noticeable cognitive change starting as early as two or three months.
- The Month-to-Month Payment Plan is an option for students who are joining us mid-year, or who wish to pay on a monthly basis.

### Registration Anytime
- Start year-round without getting behind, as each student has an individualized program (space permitting).
- Advanced registration opens the 15th (or next applicable business day) of the previous month. Six business days are required to complete registration and orientation before the student’s first class. Following initial registration, your day/time is locked in on monthly auto-renew for the duration of the school year.
