## See you Sunday, December 12

The main questions asked by millions of people not affiliated with Church are the following:

“What is the church supposed to do?”

“What is important about the church that I should consider sharing my time and resources with her?”

“How will committing to the church improve my life while making the world a better place?”

These are very basic questions that most of us never really thought about. We just went to church because our parents took us, and it was a part of our routine. Guess what? We ain't in Kansas anymore! Because times have changed so rapidly, we must revert to the basics!

Take some time to reflect on these three questions and answer each one in a sentence or two. The answers are not only what we have to communicate to the world, but we must reflect it with what our actions and behavior as a church! People what to change the world into a better place to live. Is the church willing to be a changing element in the world? Can we create God's Kingdom on earth as it is in heaven?

Church is about knowing who we are which leads us to what we do! Let's talk about it more on December 12 at 11:00 for worship and a luncheon afterwards either live or on zoom! Please RSVP!
