

Live Life Sober
BIGVISION
COMMUNITY

Dear Friend,

I am participating in the BIGVISION 3-on-3 Basketball Tournament to help save young lives and I need your support. I want to share an inspiring story with you today.

Isaac Goldberg Volkmar died at 23 years young of an accidental opioid drug overdose. Isolation leads down a dark path and unfortunately the opioid epidemic is still raging. His mom, Eve Goldberg wanted to help save young lives and prevent other parents from experiencing the same tragedy by providing what Isaac desperately looked for but couldn't find. In 2015, Eve founded NYC-based nonprofit BIGVISION.

[BIGVISION Community](#) is the trailblazing recovery support service (RSS) that saves lives by helping young adults (18-35) to see that sobriety can be EXCITING and FUN by connecting with a peer community through experiences. "People need people" and young people need young people. BIGVISION believes that a joyful sober life is possible and bridges the gap between a broken system and sustainable recovery. BIGVISION celebrates life in recovery!

All of this happens because of people like you. You help us keep the vision alive.

Our annual **BIGVISION 3-on-3 BASKETBALL TOURNAMENT** in NYC on June 23, 2022 at Basketball City is raising funds to support this goal. [See our Basketball Tournament video.](#)

Join us! Your gift will help save a young life!
