Mission -To Create & Share the Experience of Innovative Theatre

History
Brüka Theatre began in 1992 as a small group of professional theatre artists who combined their artistic vision in the pursuit of high quality theatre. The company initially produced educational audience participation theatre for children, in the format of original adaptations of classic fairy tales, which later developed into our current format of original theatre for children that is written and performed by members of the company. In 1996 Brüka Theatre expanded its operations to include contemporary, classic and original productions for adult and family audiences. The combined success from these ventures enabled the company to establish it’s featured location in the Masonic Building on the corner of First and Virginia in the heart of Reno’s downtown Arts District. Renaissance Projects officially merged with Brüka in 1999. The company opened Sub-Brüka as a second performance space in the basement of the Masonic Building in 2000.
