CLIENTS SERVED
AGENCY CHART
As we enter our 50th year of service, we are humbled to look back on the growth of our heritage of service through the years, grateful for all the silent heroes throughout those years that contributed in so many ways; from the church organizations and members that brought together and sponsored the initial and early years’ efforts; to the volunteers, donors, peers and professionals that have given of themselves in their unique ways; to the collaborating agencies, supportive communities, as well as the governmental, private foundations and individual funders who have sustained the various efforts to change lives. The advocates for health in body, mind, and spirit, in all the various forms of service they provide, promoted their positive results and the legacy we strive for in the lives of the clients and families of those we serve and in the communities in which we live and serve. The benefactors of the motivation, skills and resources that bring about change most often have served as silent heroes, outside of the public eye, normally without any thank-you received, and in so doing, have reflected their loud strength of heart. As we look forward, we welcome all the new heroes (silent or otherwise) that join our cause and ask that you help us to encourage one another in our own best ways.

The growing heritage of service is reflected in this annual report of the services we provide currently and many of their outcomes. This year we have added, or in the process of adding, the following programs:

1) The Belgravia Welcome Center, a 32 bed low-barrier homeless shelter and triage center located in Fresno.
2) The Golden State Welcome Center, a 37 bed low-barrier homeless shelter and triage center also in Fresno.
3) The La Serena Step Down Home, a group home for intellectually disabled youth in Nipomo.
4) The Huron Rural Mental Health Clinic in southwest Fresno County.
5) The Porterville Welcome Center, a homeless shelter and triage center.
6) The G Street Recovery Services, 25 beds of sober living environment in Fresno.

**Significant Program Expansions Have Occurred At:**

1) G Street Probation Center, expanding from 25 to 50 beds.
2) The Coalinga Rural Mental Health Clinic expanded into larger offices accommodating more staff.
3) An Early-Onset Psychosis program is being added to the Hope House Wellness Center in Madera County.
4) Employment services for disadvantaged youth are expanding throughout Monterey County.

As we press forward in pursuit of our organizational mission we will strive to implement the practices, methods and interpersonal approaches to service that our own measured outcomes of program experience support as successful, and that are consistent with methods based in the evidence of established, leading-edge and promising behavioral health care and social services practices and research. We will remain open professionally to new approaches to service, new types of providers of services, and new areas of need that present in our communities. We can work more with educational programs to develop needed professionals, of which there is a shortage, and with the “recovering communities and families” to promote the effectiveness and professionalism of peers and paraprofessionals. We can also bring more “heroes” to our cause by partnering with other agencies, foundations, professional associations, public advocates, and spiritual communities. There is no shortage of behavioral health and societal ills that is our privilege to work to address. As we work together, let us remember that as was promoted by Shakespeare and others, that hope is the best medicine.
Mission

To Provide Public Benefit Through Helping People Develop Skills, Motivation, And Resources To Become Productive Members Of Society; Healthy In Body, Mind, & Spirit.

Our Vision

We Are Dedicated To Benefitting The Communities We Serve, And To Reducing Social Problems Through Providing Each Program Participant The Opportunity To Establish A Healthy, And Productive Life.

Skills + Motivation + Resources = Productive Life

Values

INTEGRITY: We seek to carry out the mission of the agency ethically, safely, and lawfully.

HONESTY: We seek to avoid any actions or statements that could discredit the agency, and to have the courage and honesty to accept responsibility for our actions and statements.

SERVICE: We seek to carry out the mission of the agency as the highest priority without neglecting our own needs, or the sustainability of the organization.

EXCELLENCE: We seek to provide excellent, high quality professional services, and to work collaboratively in fulfilling the mission of the agency.

ADAPTABILITY & INNOVATION: We seek to adapt to change, and be innovative in fulfilling the mission of the agency.

CULTURAL SENSITIVITY: We seek to be sensitive to the culture in which we work, and to be diligent in determining appropriate strategies and priorities with wisdom, compassion, & respect.
