

**COLORADO**  
Health Service Corps

**More care for more communities**

# Are you driven to serve?

Colorado needs more health care professionals who have the ability, compassion, and commitment to work with medically underserved populations across the state. *That's where we come in.*

The mission of the Colorado Health Service Corps (CHSC) is to improve the health of medically underserved residents and communities in Colorado by increasing their access to primary medical, oral, and behavioral health care, as well as substance use disorder treatment services.

**FIND YOUR FIT**

**540+**

**Qualified  
Clinical Sites**

Our program improves equitable health care access for Coloradans while providing relief from student loan debt for clinicians who further our mission—working across the state, in urban and rural areas, at more than 540 qualified clinical sites.

**COLORADO**  
Health Service Corps

**More care for more communities**

# Focus on care, not debt.

The Colorado Health Service Corps awards up to \$120,000 for a three-year commitment at a practice in a designated health professional shortage area serving low-income, publicly insured, uninsured, or rural Coloradans.
