SUMMARY OF APPROACH

OUR MISSION: We impact capacity development in human service systems through strategic public-private partnerships, leadership and collaboration..

VISION

We envision an inclusive Virginia where all people have the opportunity to participate in every aspect of our community and realize their full potential.

- Currently have 3 early childhood alliance members.
- We work with the center to provide ala carte solutions that address their needs
- Consulting with one early childhood center on how to provide access to children with autism in inclusion at their center. This includes tapping into insurance funding to help cover the additional costs of providing behavioral health services.
- Expanding to provide services all over the Commonwealth of Virginia.

TECHNOLOGY PLATFORM(S) USED BY THE ALLIANCE

- ProCare
- Quickbooks

SERVICES PROVIDED

- Payroll Processing

FUNDING

Funding source for Alliance startup: Foundation Grants
Funding source for ongoing Alliance implementation: Fee for service

Do Alliance members pay fees for services received? Yes
Do membership fees cover Hub cost of services? Yes

IMPACT

We have been able to prove time and monetary savings. These savings were reinvested in higher wages for staff, better medical benefits, and bonuses, which in-turn led to staff retention and better quality. We've been able to show centers how to tap into insurance funding to care for children with autism in an inclusive setting in their center.
