our manifesto

01

What we stand for

we believe in culture over clout.

we believe in hard work,

we believe in working with heart.

we believe in the process, of doing & believing
of holding on.

We believe in — the now.

We believe in — a thing of sense.

02

A Thing of Sense... is a play on having a 'sense' of things!

being in a state of mind;

of staying present in the moments in-between;
of the beauty behind the
everyday mundane.

& Sensibility

It is a reminder to slow down,
but don't stop; to take in every detail.

* Listen intently, take heart and
focus on the things that matter.

03

Our Story

(what we set out to do)

We have dreamed up a line of scents,
tailored to a mood or a fleeting moment
in time; but at the heart of each scent,
it is yours to define.

We hope every burn warms
your heart and mind.

04

Building Our Scentscape

A scent. A sound.

A mood, a moodboard.

A moment, many fleeting moments.

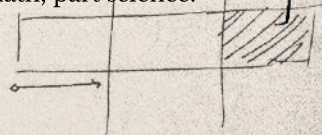

Day till night, Dusk till dawn.

We find words, words found us.

We like to think it is the perfect trinity;
part art, part math, part science.

05

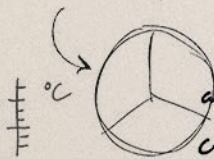

Our Process

Melt, mix, pour, rinse, repeat.

Tried & tested — a calculated combination

of the right amount of wax
and oil balance, poured and
cured at a precise temperature.

* Method to
our madness
