

SLCP Case Study: Gokaldas Exports Ltd

- In 2019, Gokaldas Exports Ltd started with SLCP in one manufacturing unit as a pilot.
- In 2020, Gokaldas Exports Ltd conducted 6 verified assessments, with more than one brand accepting the verified data.

Advantages of SLCP

Most buyers accept SLCP verified data

All SLCP procedures and documents are standardized for uniform implementation.

Increases understanding of working conditions in facility

Better information to formulate goals and to define roadmaps

“Gokaldas Exports Ltd endorses SLCP as a powerful initiative. We are very much inspired and motivated to be part of this, as the framework integrates robust social and labor compliance standards. While this can help us standardize the social compliance process across the organization, it would also obviate the requirement of multiple customer audits, thereby eliminating the element of audit fatigue. We are happy to partner and explore how it can help us optimize our cost as well as commitment of resources, as we accelerate our transition towards sustainable business/labor compliance.”
