Getting started with SLCP!

**SLCP Process: Overview**

1. **Data Collection:** Facility completes data collection as self- or joint-assessment
2. **Data Verification:** Facility selects Verifier Body and the Verifier completes the verification
3. **Data Hosting & Sharing:** Facility reviews data and chooses whom to share the verified assessment report with via the Gateway & Accredited Hosts

**Initial Steps for Facilities:**

1. Create an account on the SLCP Gateway
2. Complete the SLCP e-learning
3. Create an account on your chosen Accredited Host platform
4. Complete a self or joint-assessment
5. Schedule verification of your self or joint-assessment.

The Benefits of SLCP!

SLCP tackles audit fatigue by reducing the time and money spent on social and labor audits:

- One verified assessment per year that contains enough data to satisfy a wide range of customers;
- Overtime SLCP verified assessment data will replace all other audit systems;
- Your facility will only need one verification per year (instead of multiple audits).

Industry Support

SLCP has wide support from 250+ signatories from all around the world.

Over 60+ brands, retailers, and standard holders publicly commit to accepting SLCP verified data.
