

10 signs of a good UI

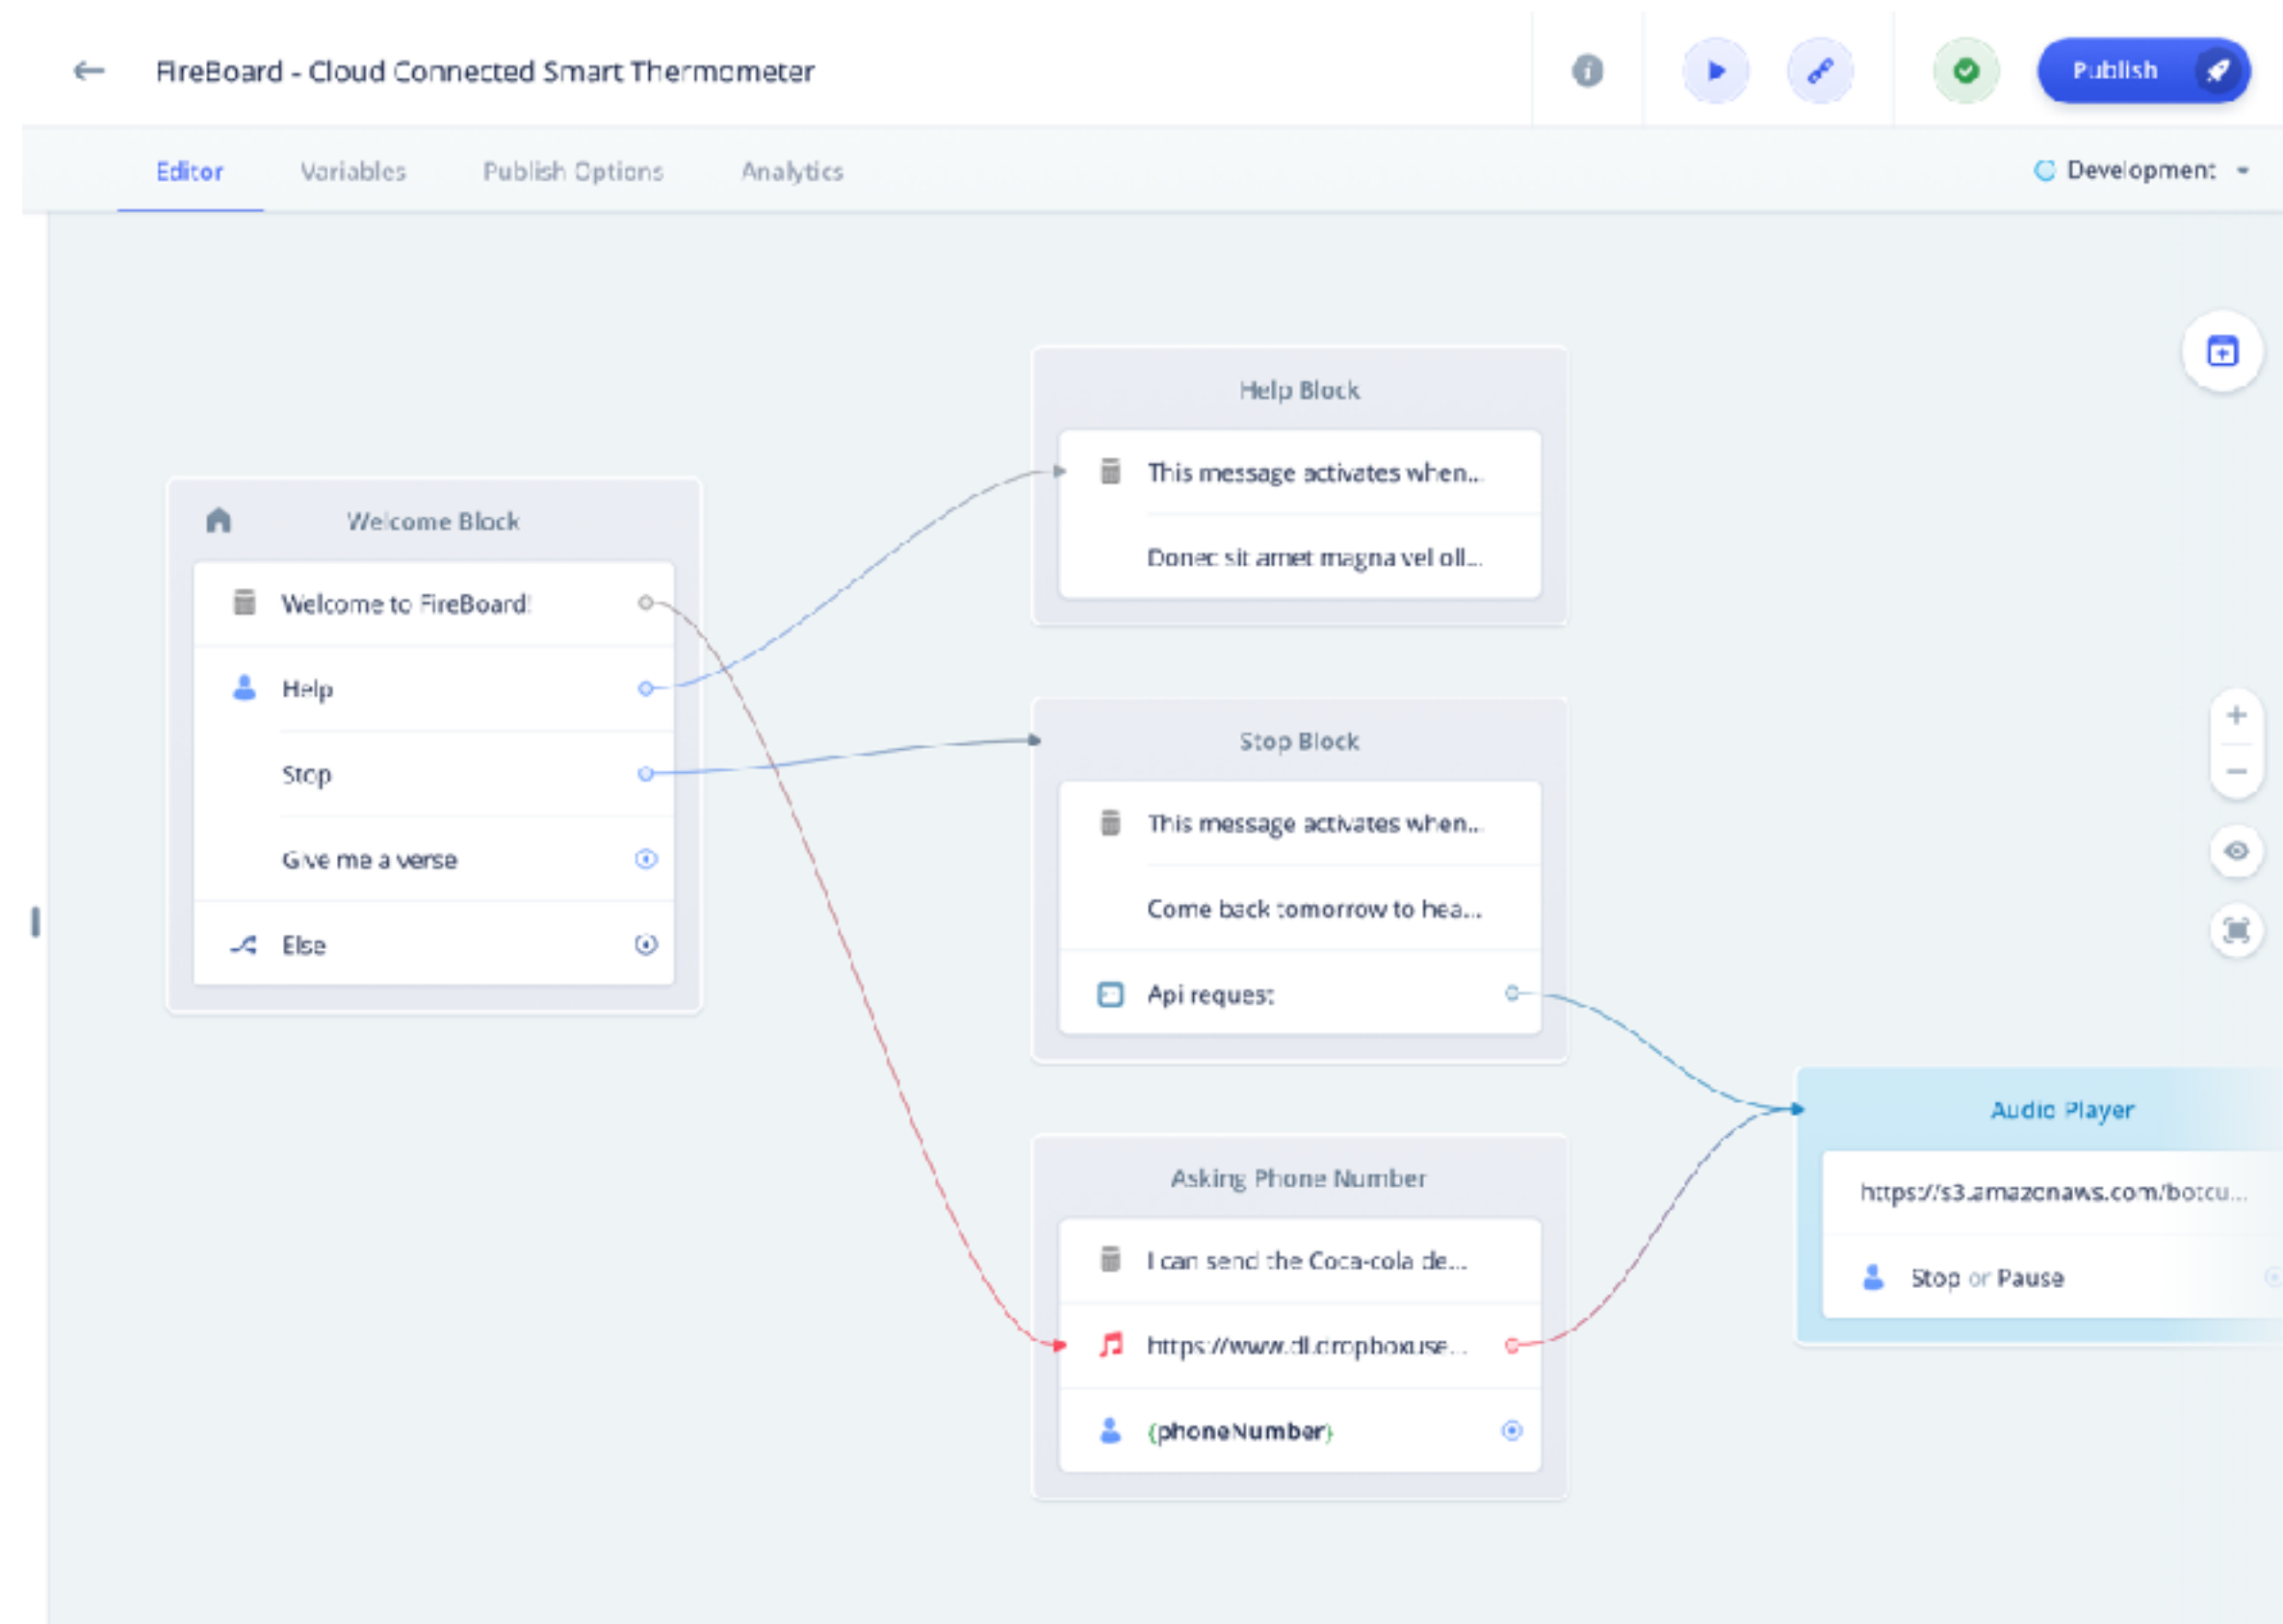

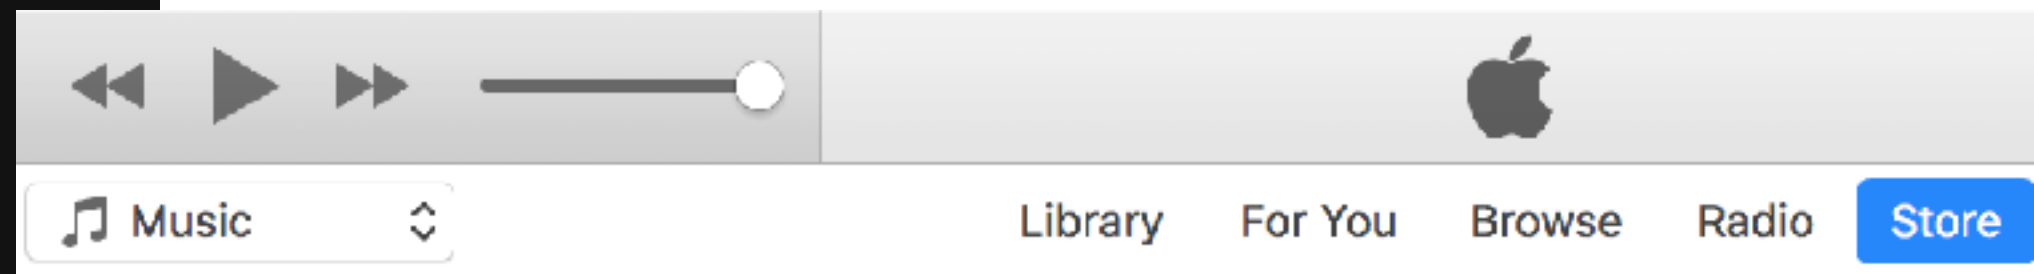

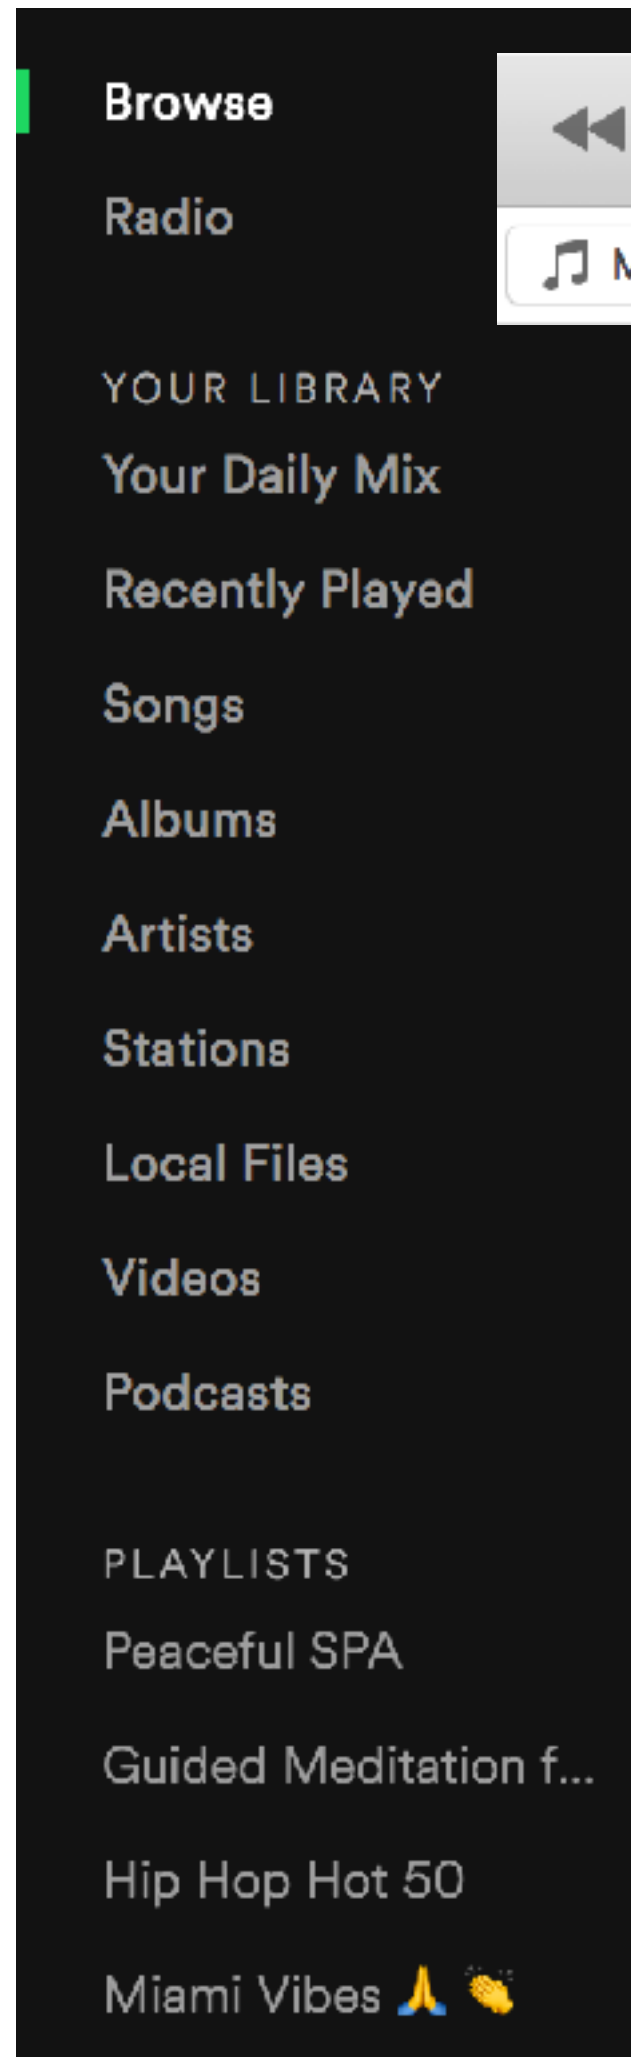

1. GIVE FEEDBACK

Is appropriate feedback given at the right time?

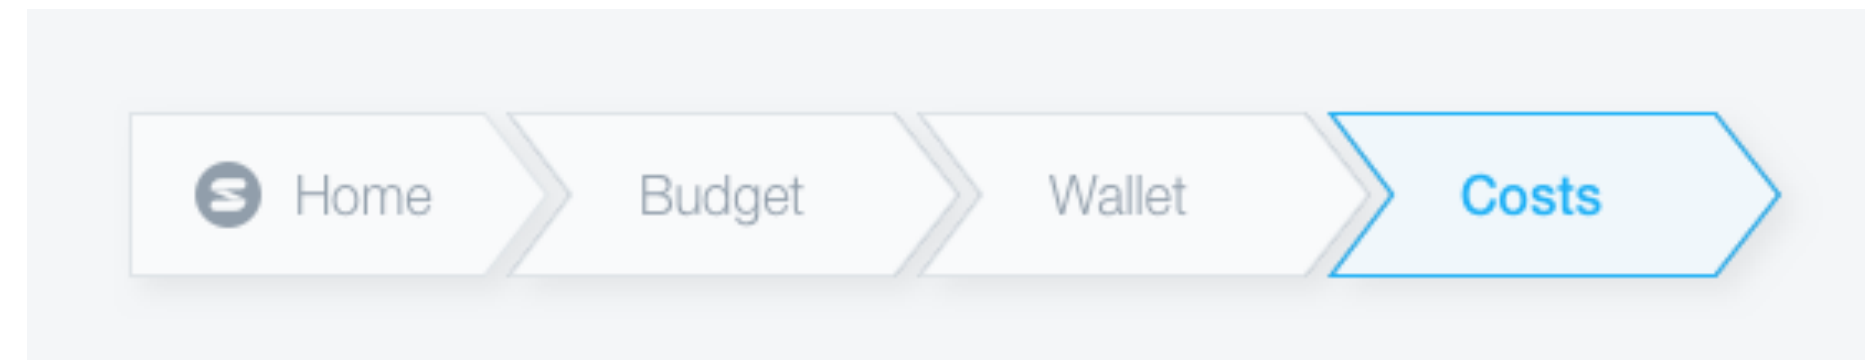

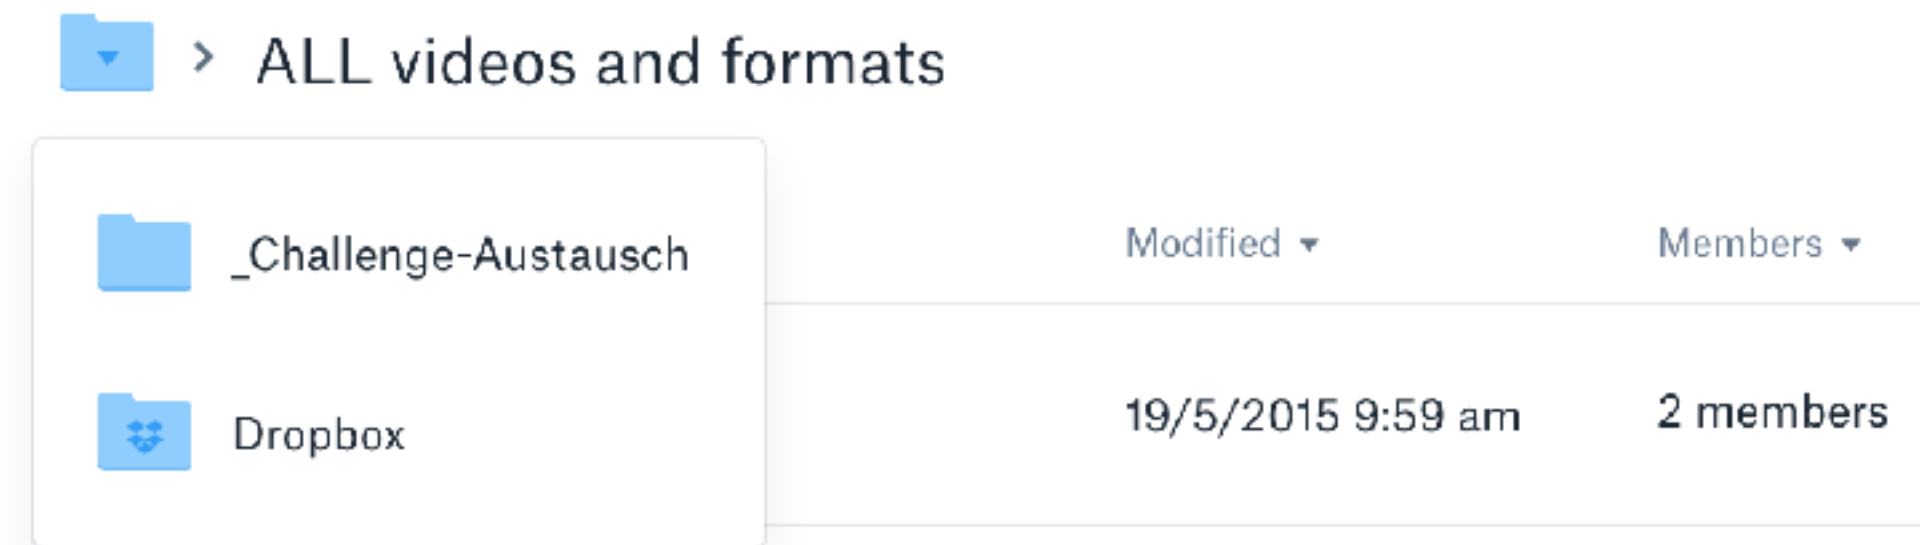

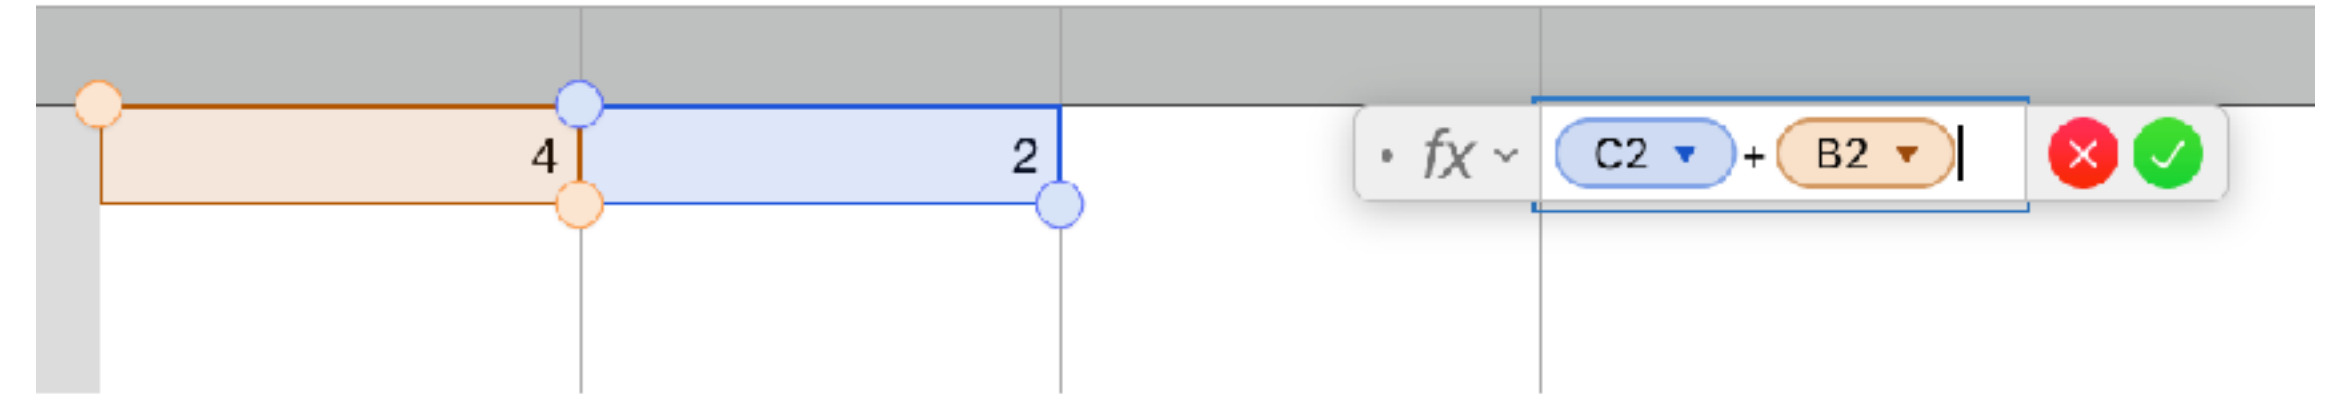

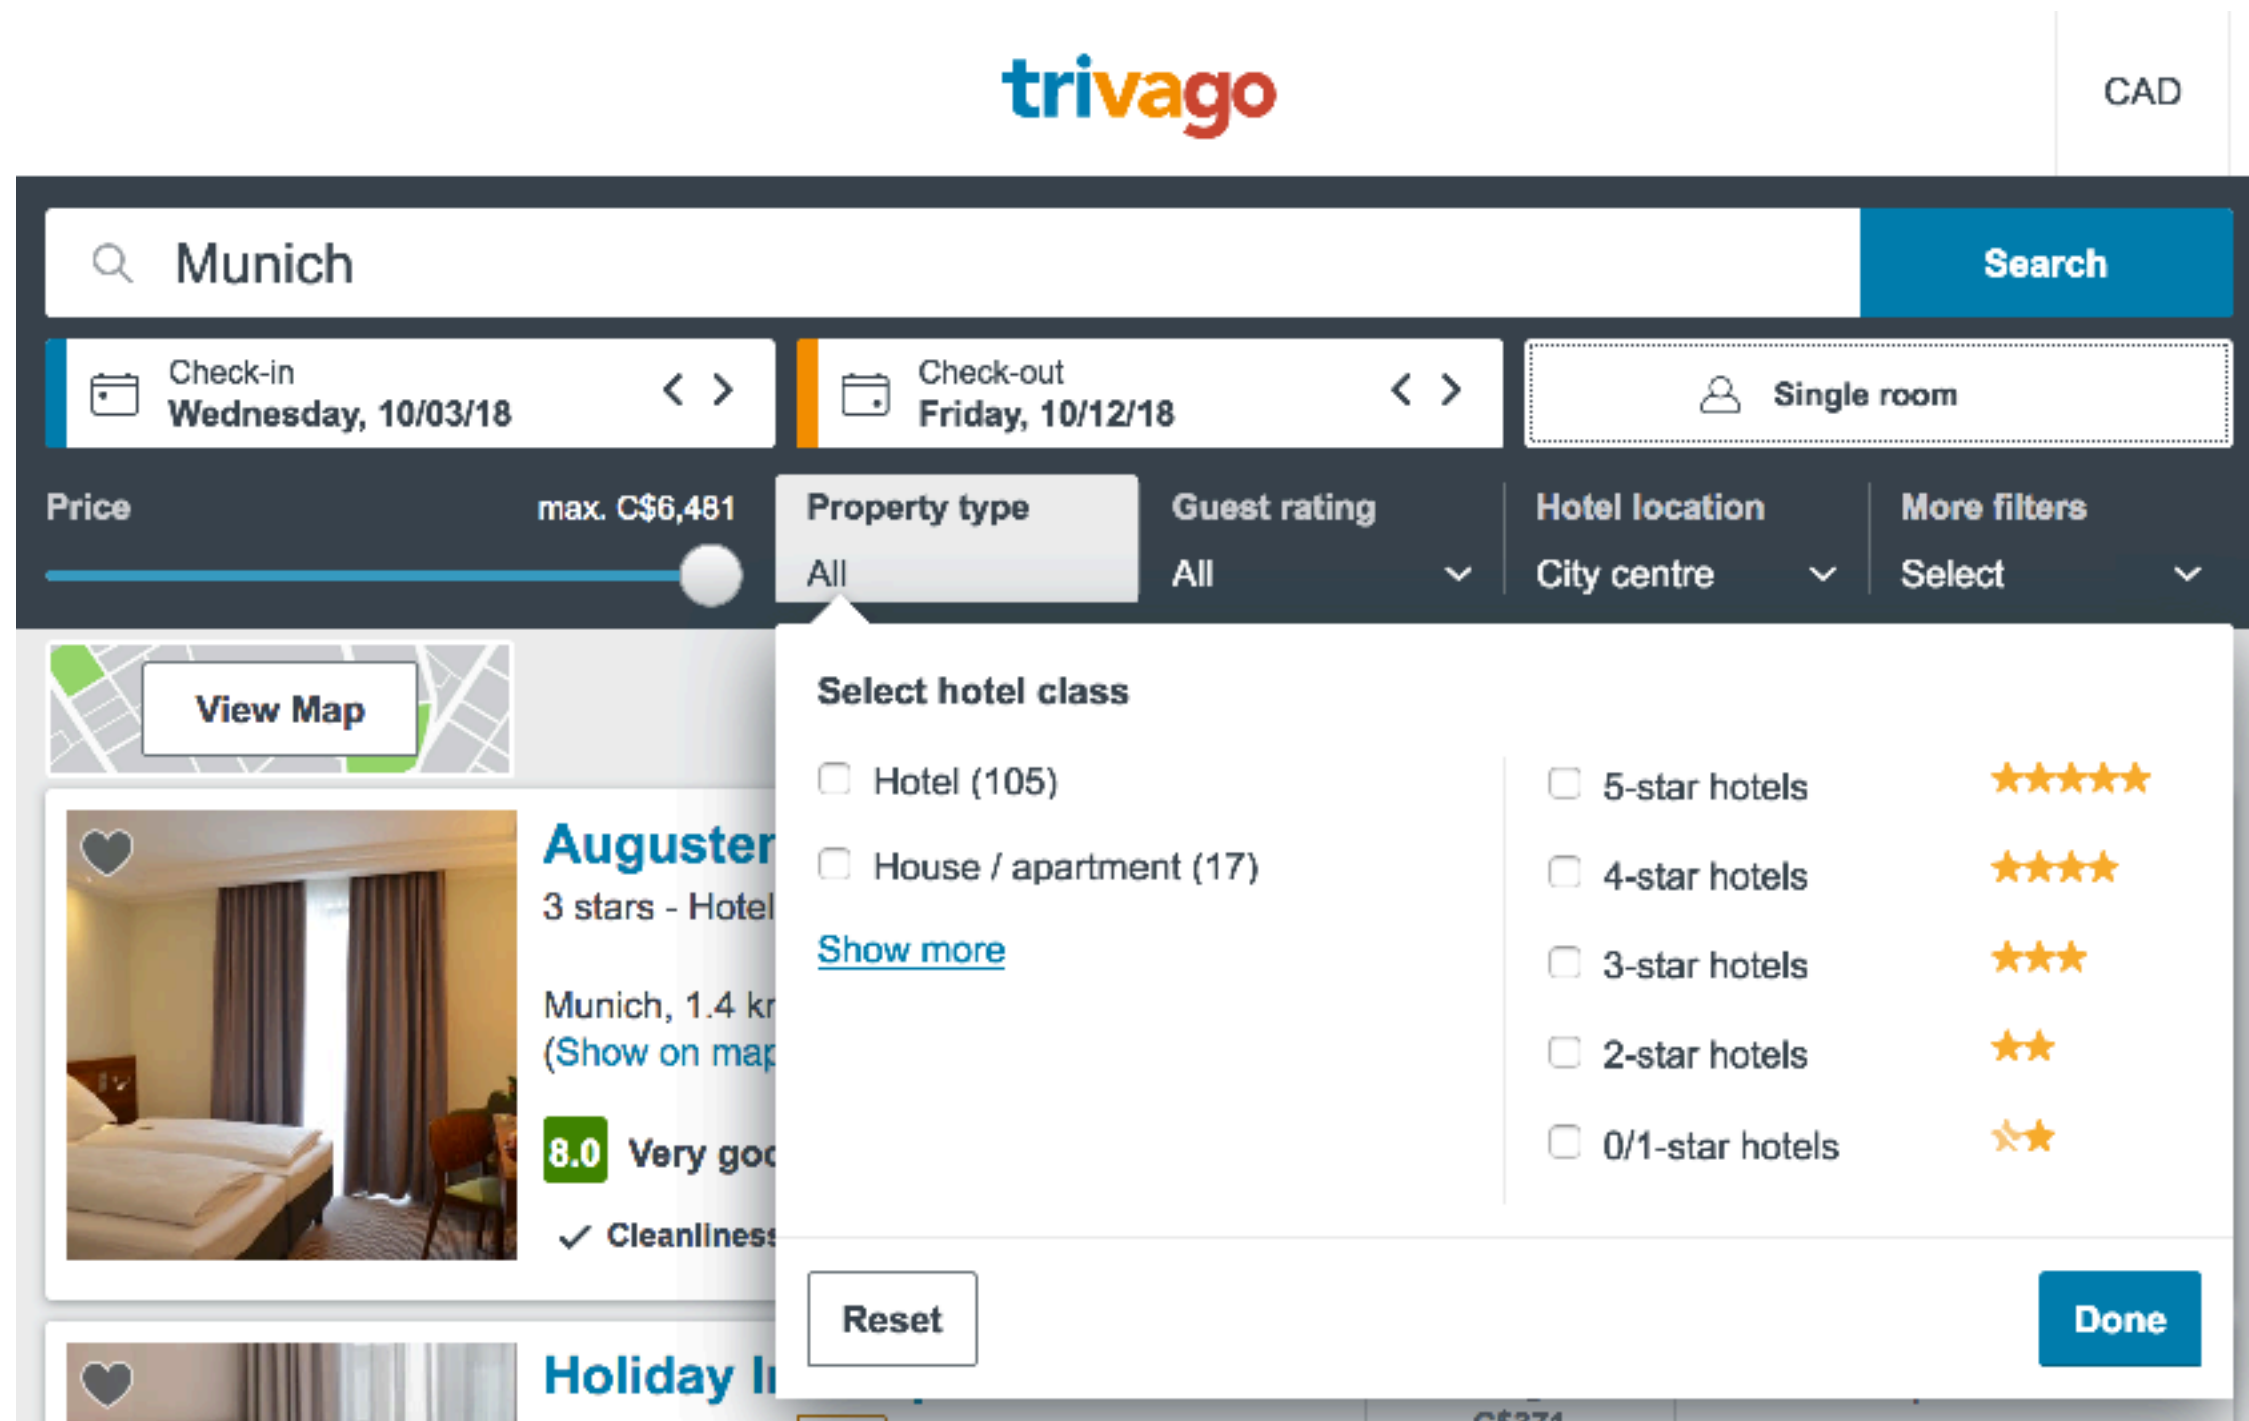

2. SPEAK THE USER'S LANGUAGE

Does the system use words, metaphors and concepts similar to those in the user's world?

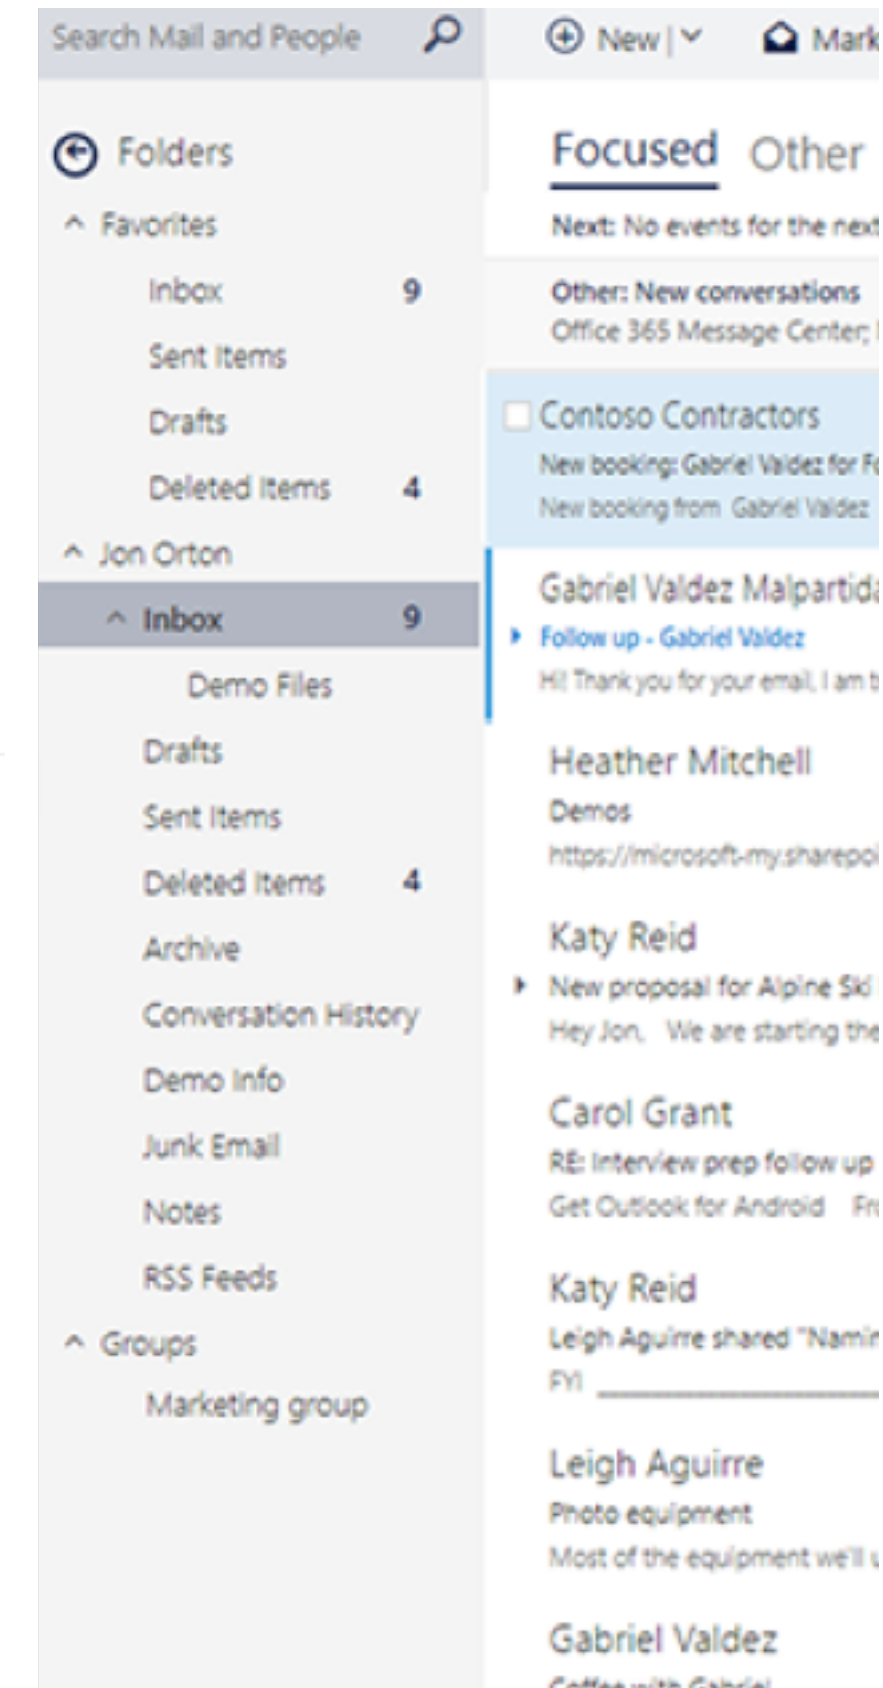

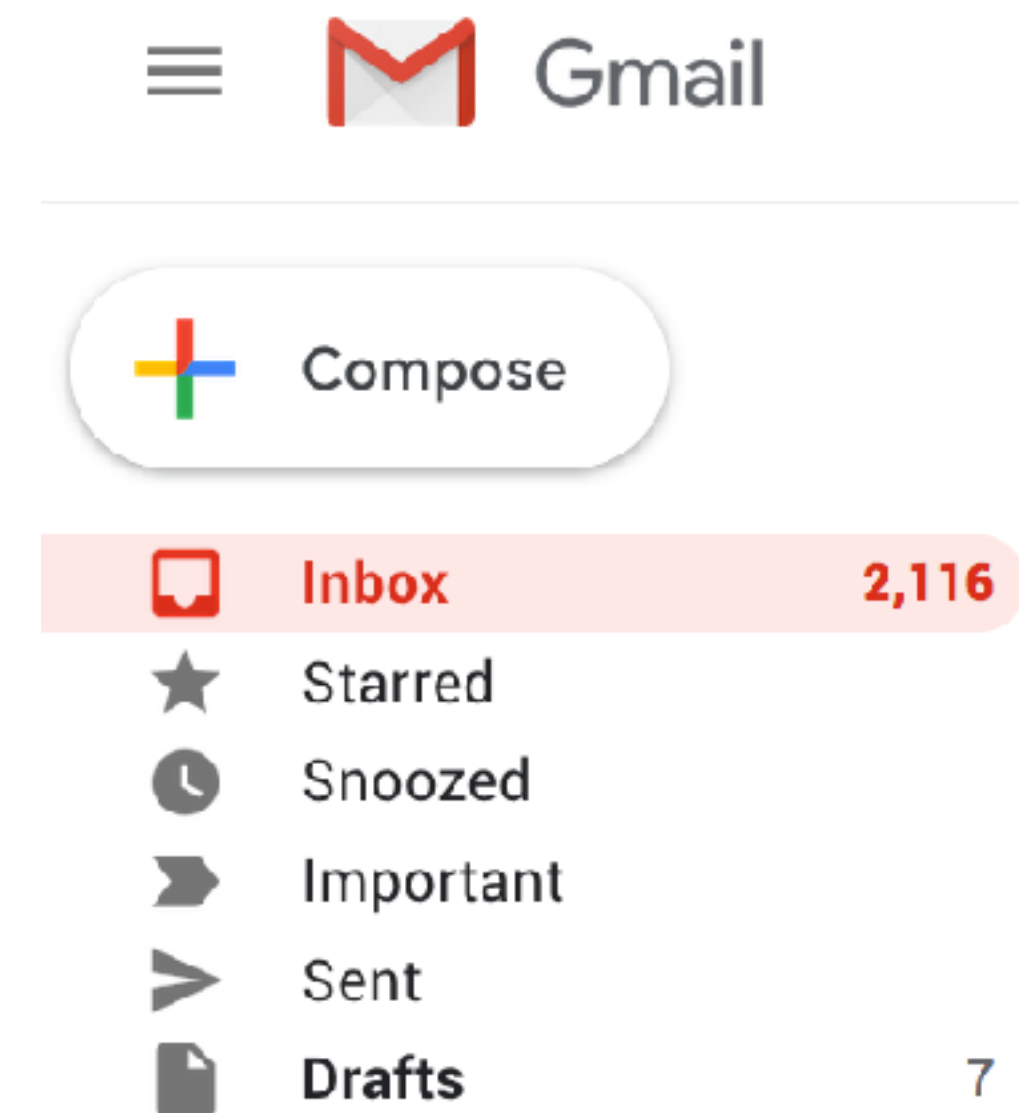

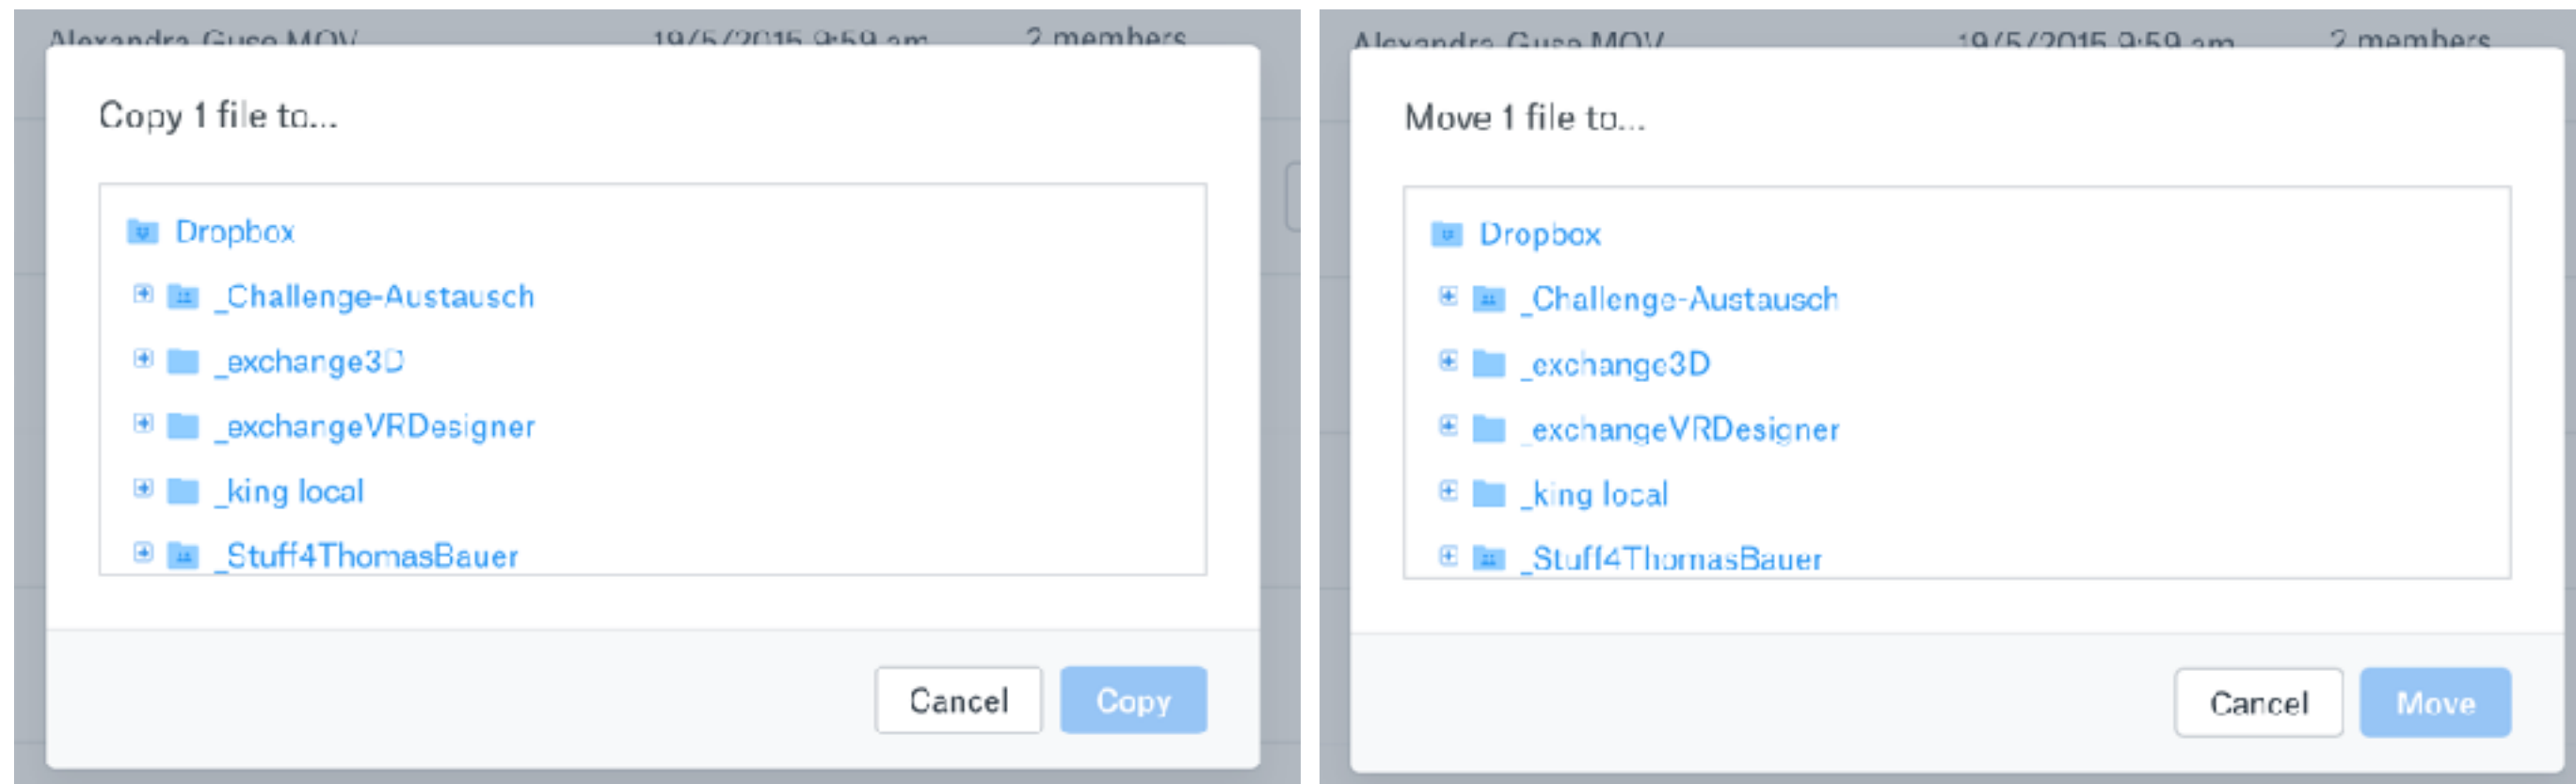

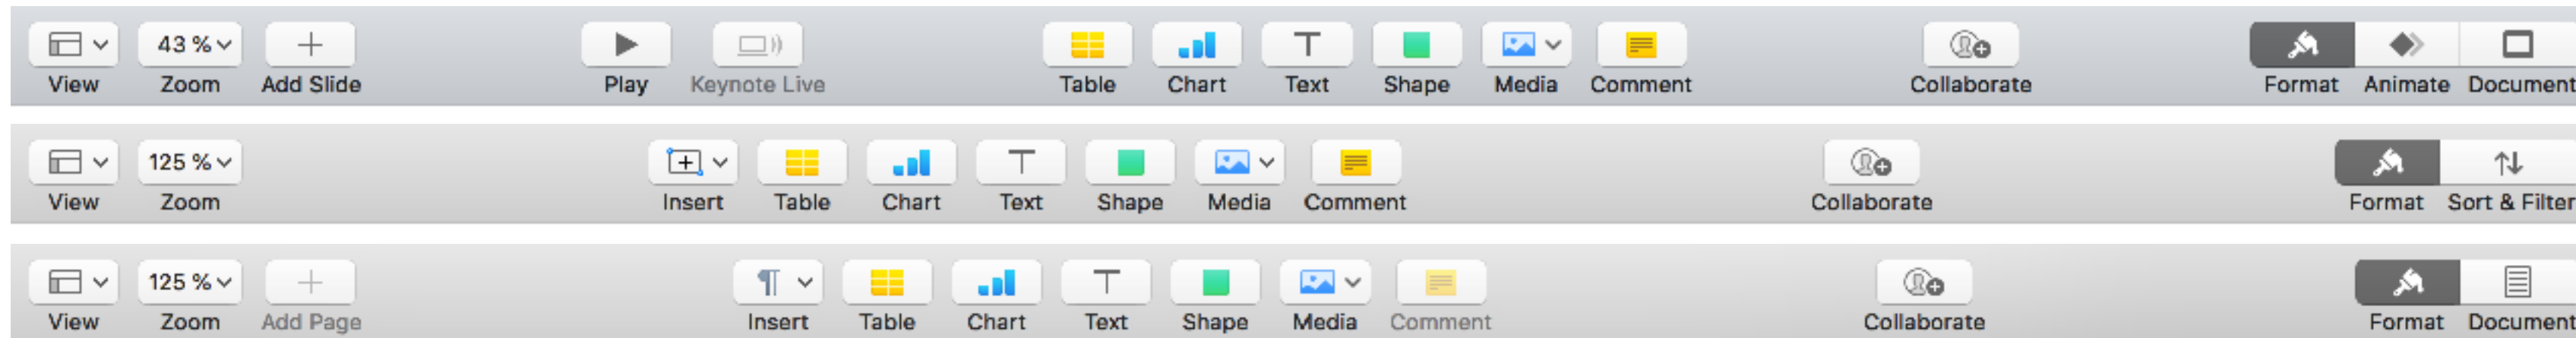

3. GIVE CONTROL & FREEDOM

Where am I? Where did I come from?
Where can I go? Is it easy to undo actions?

4. BE CONSISTENT AND USE PLATFORM STANDARDS

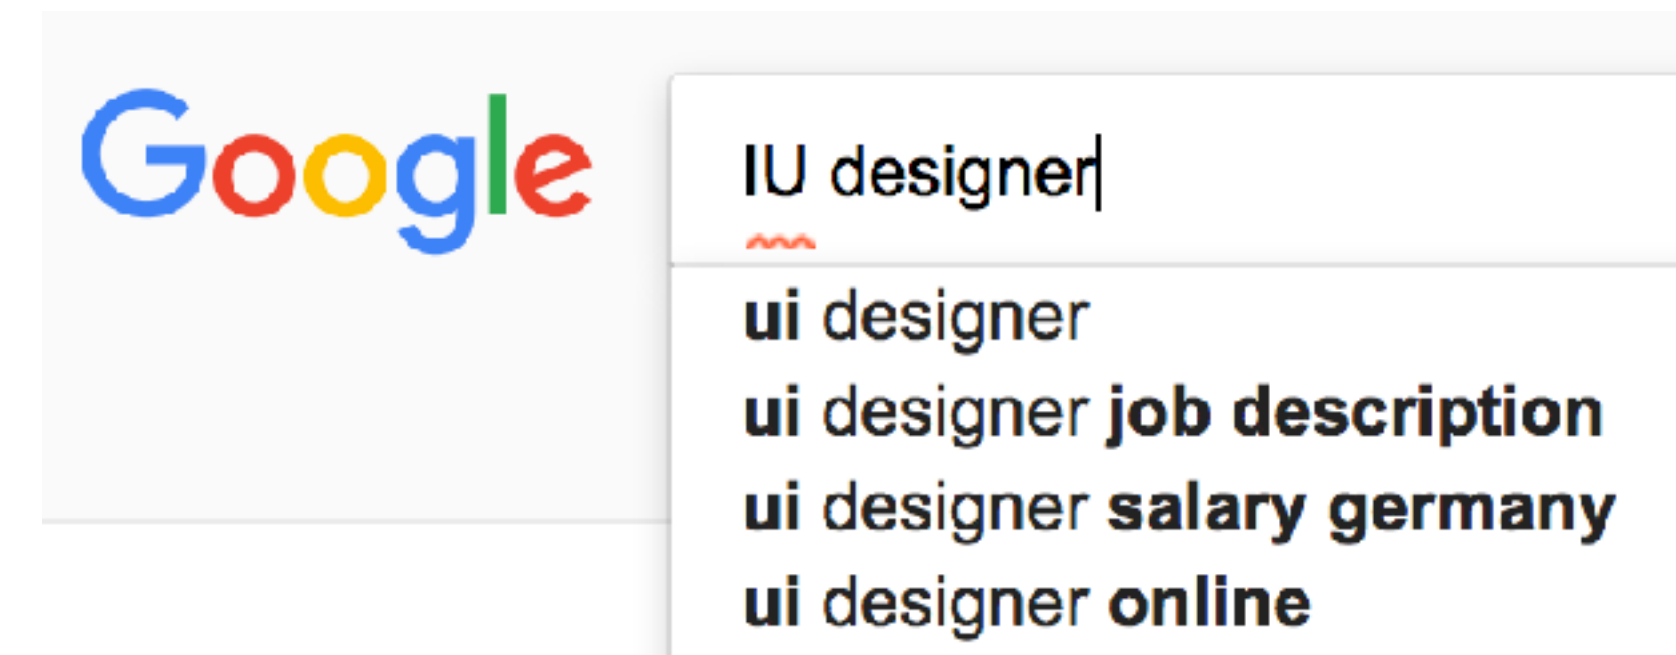

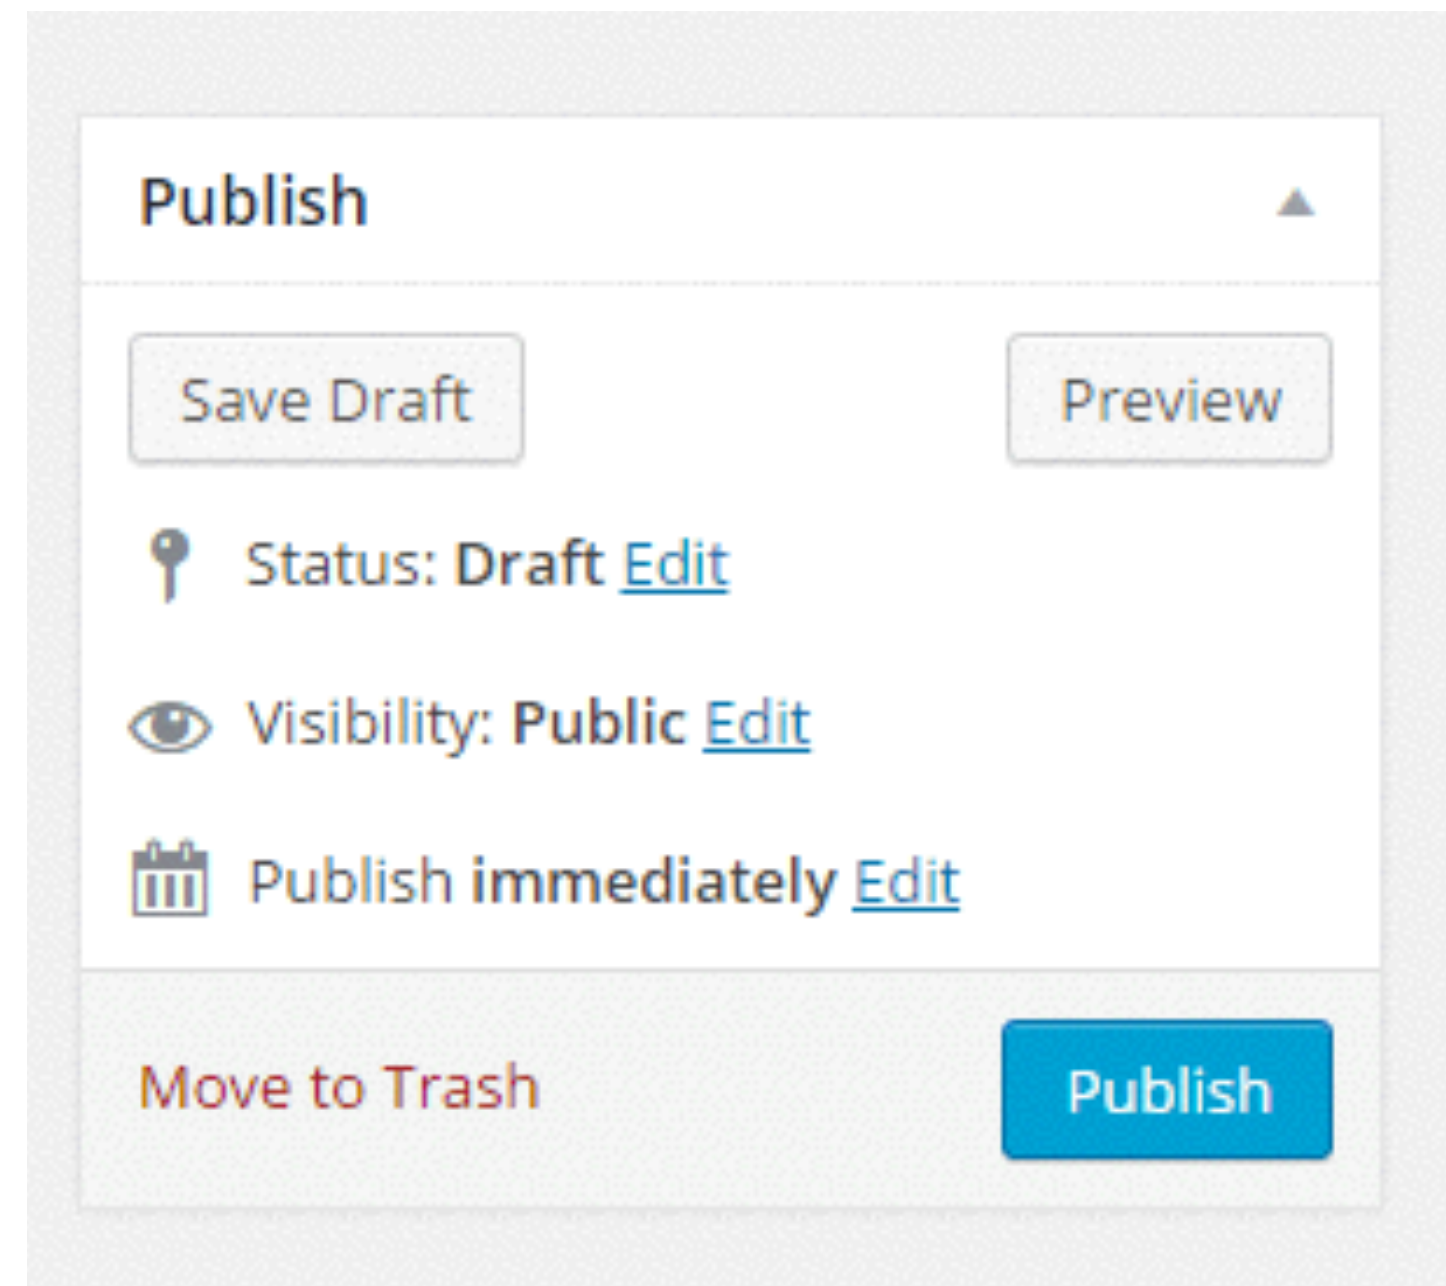

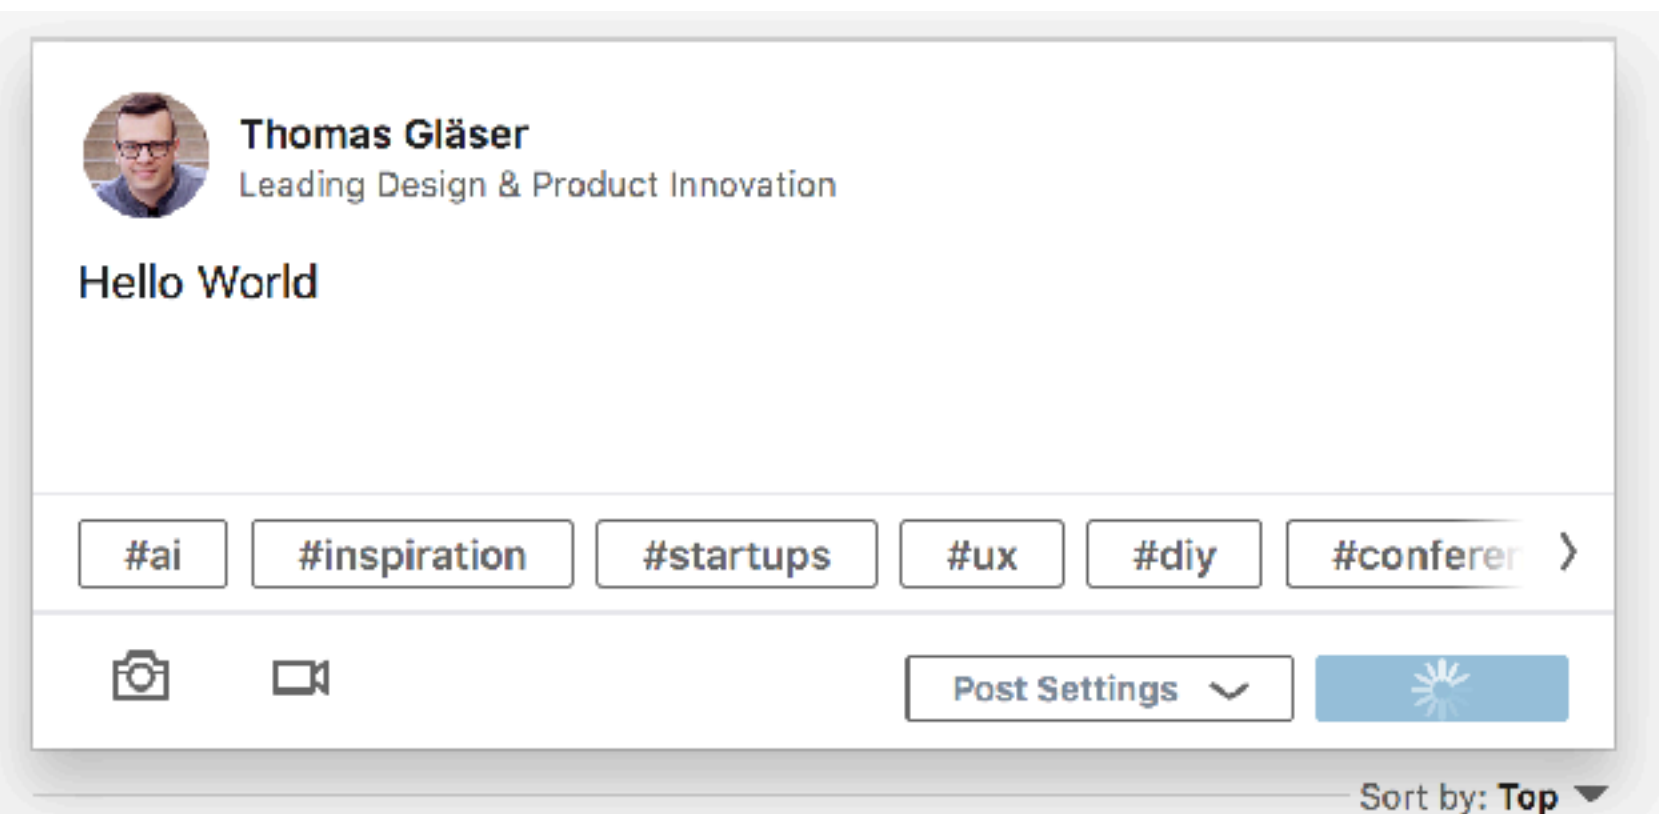

Do the same things always work the same way in the system?

7

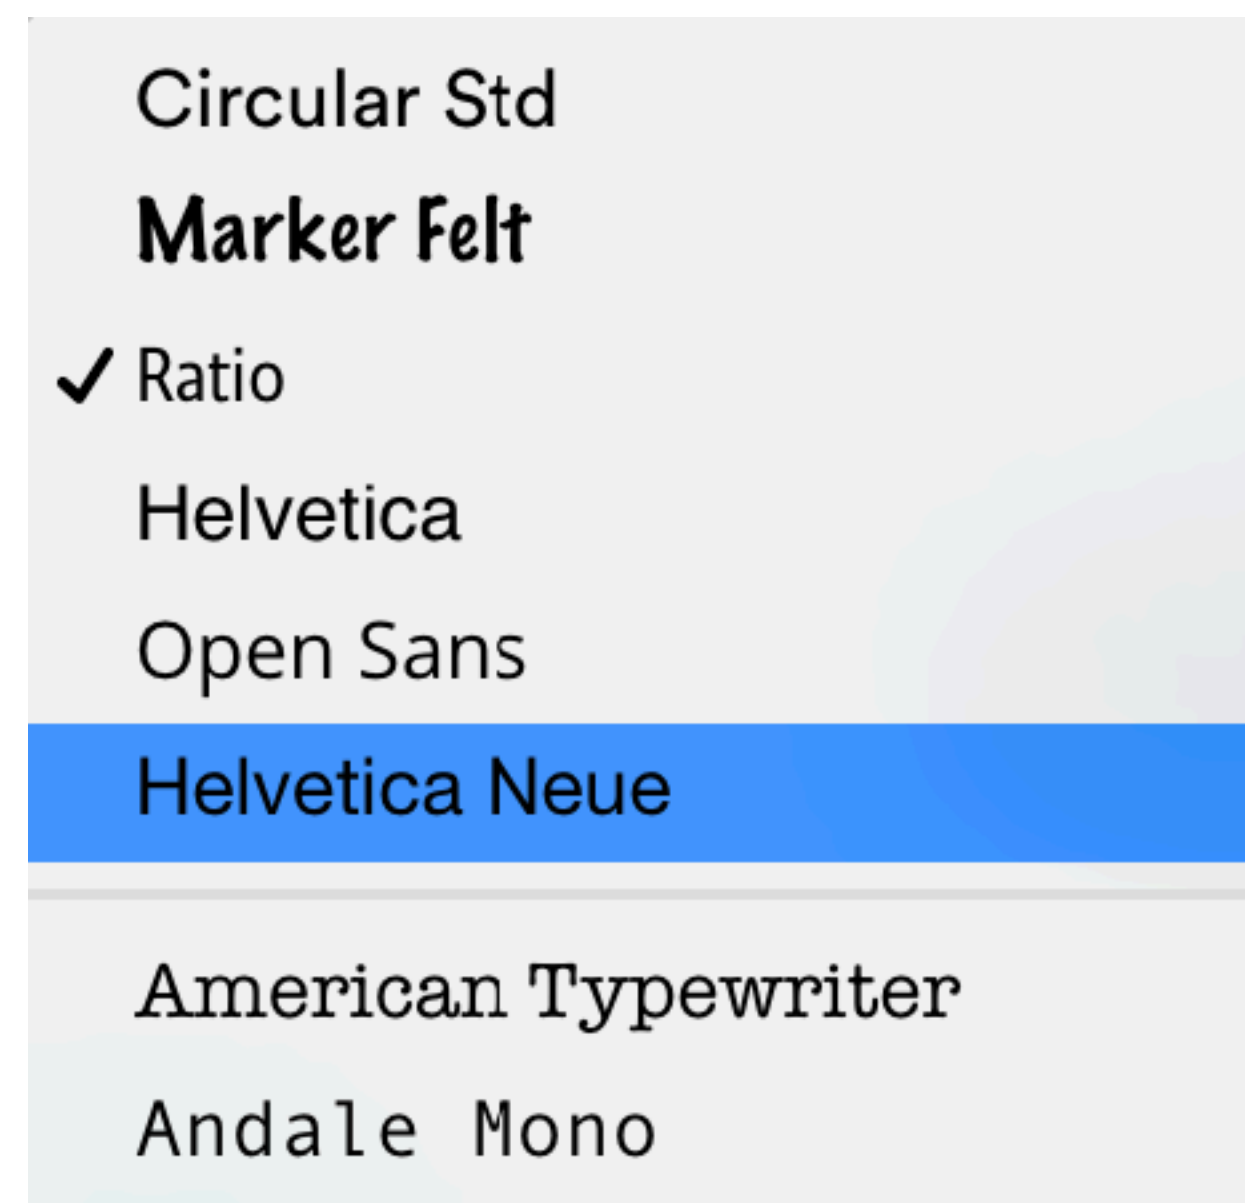

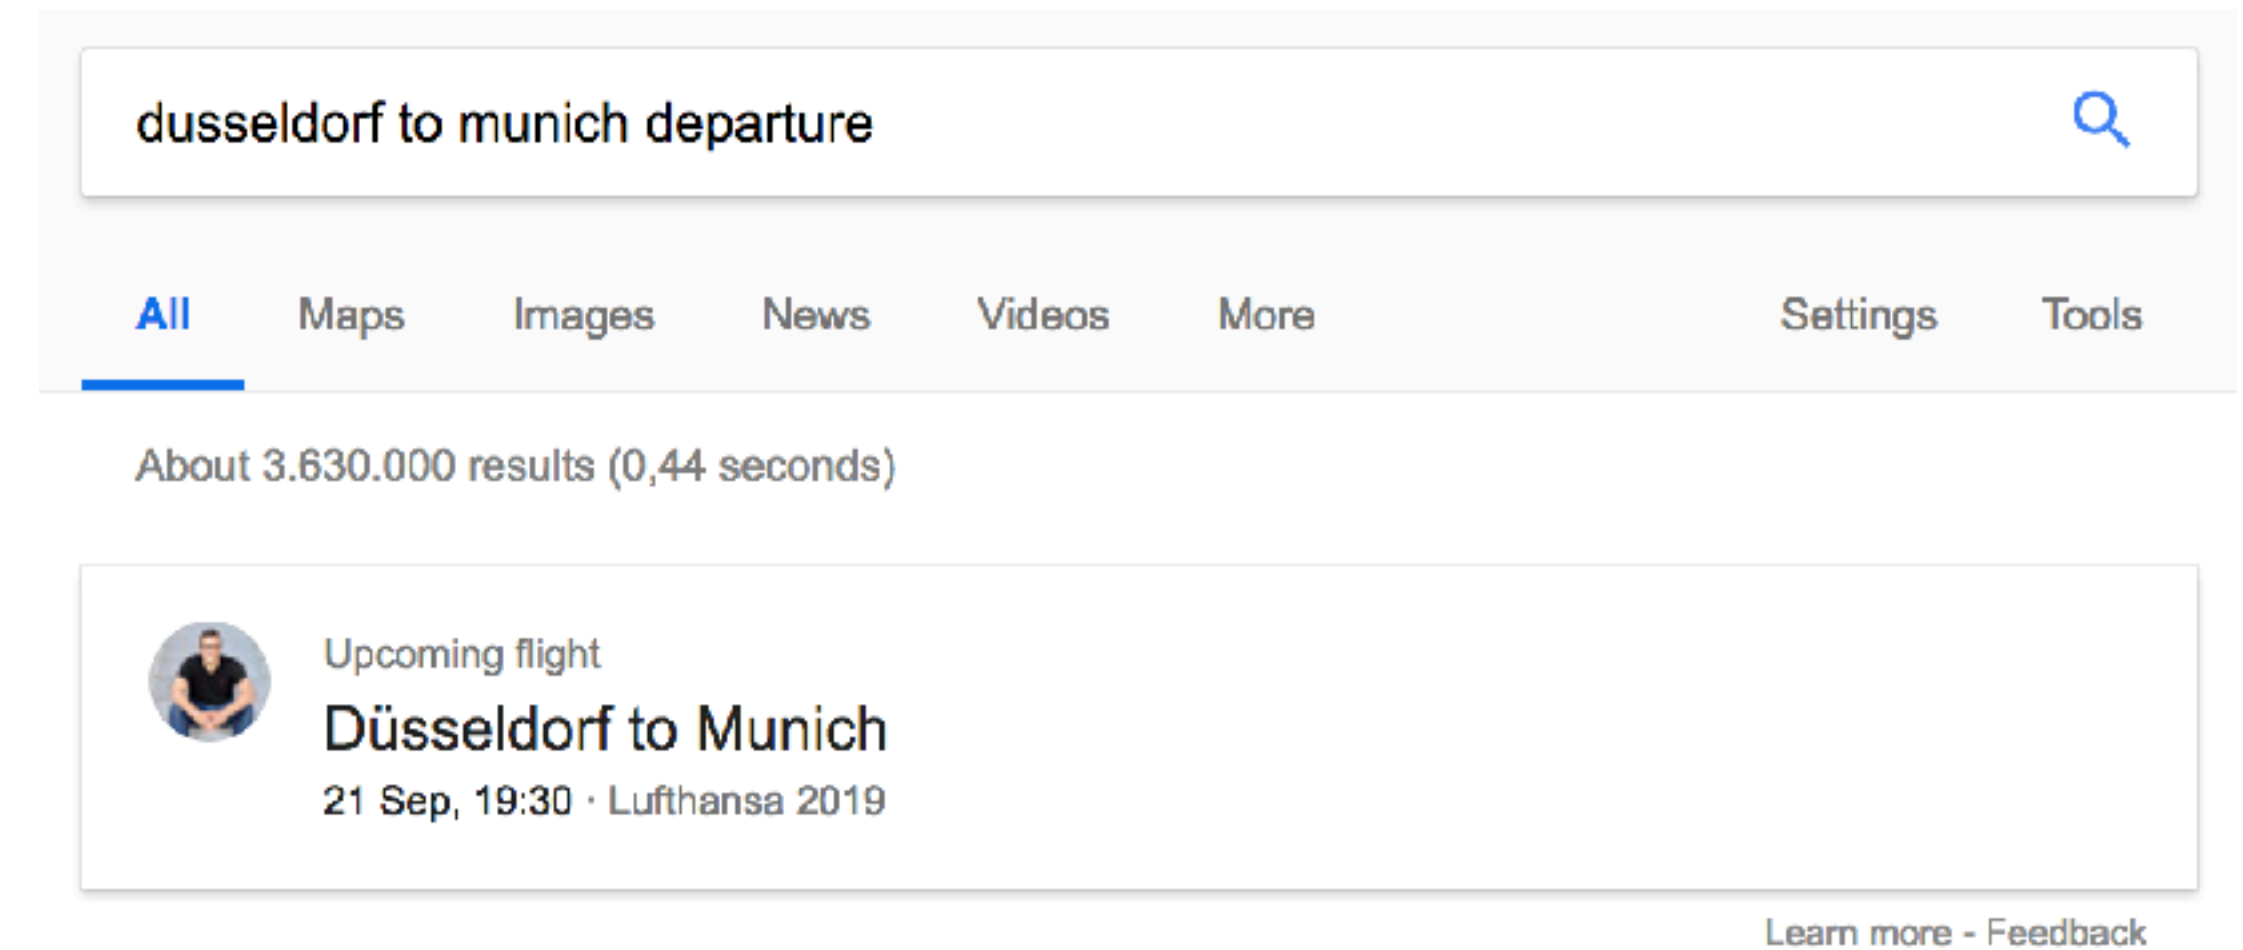

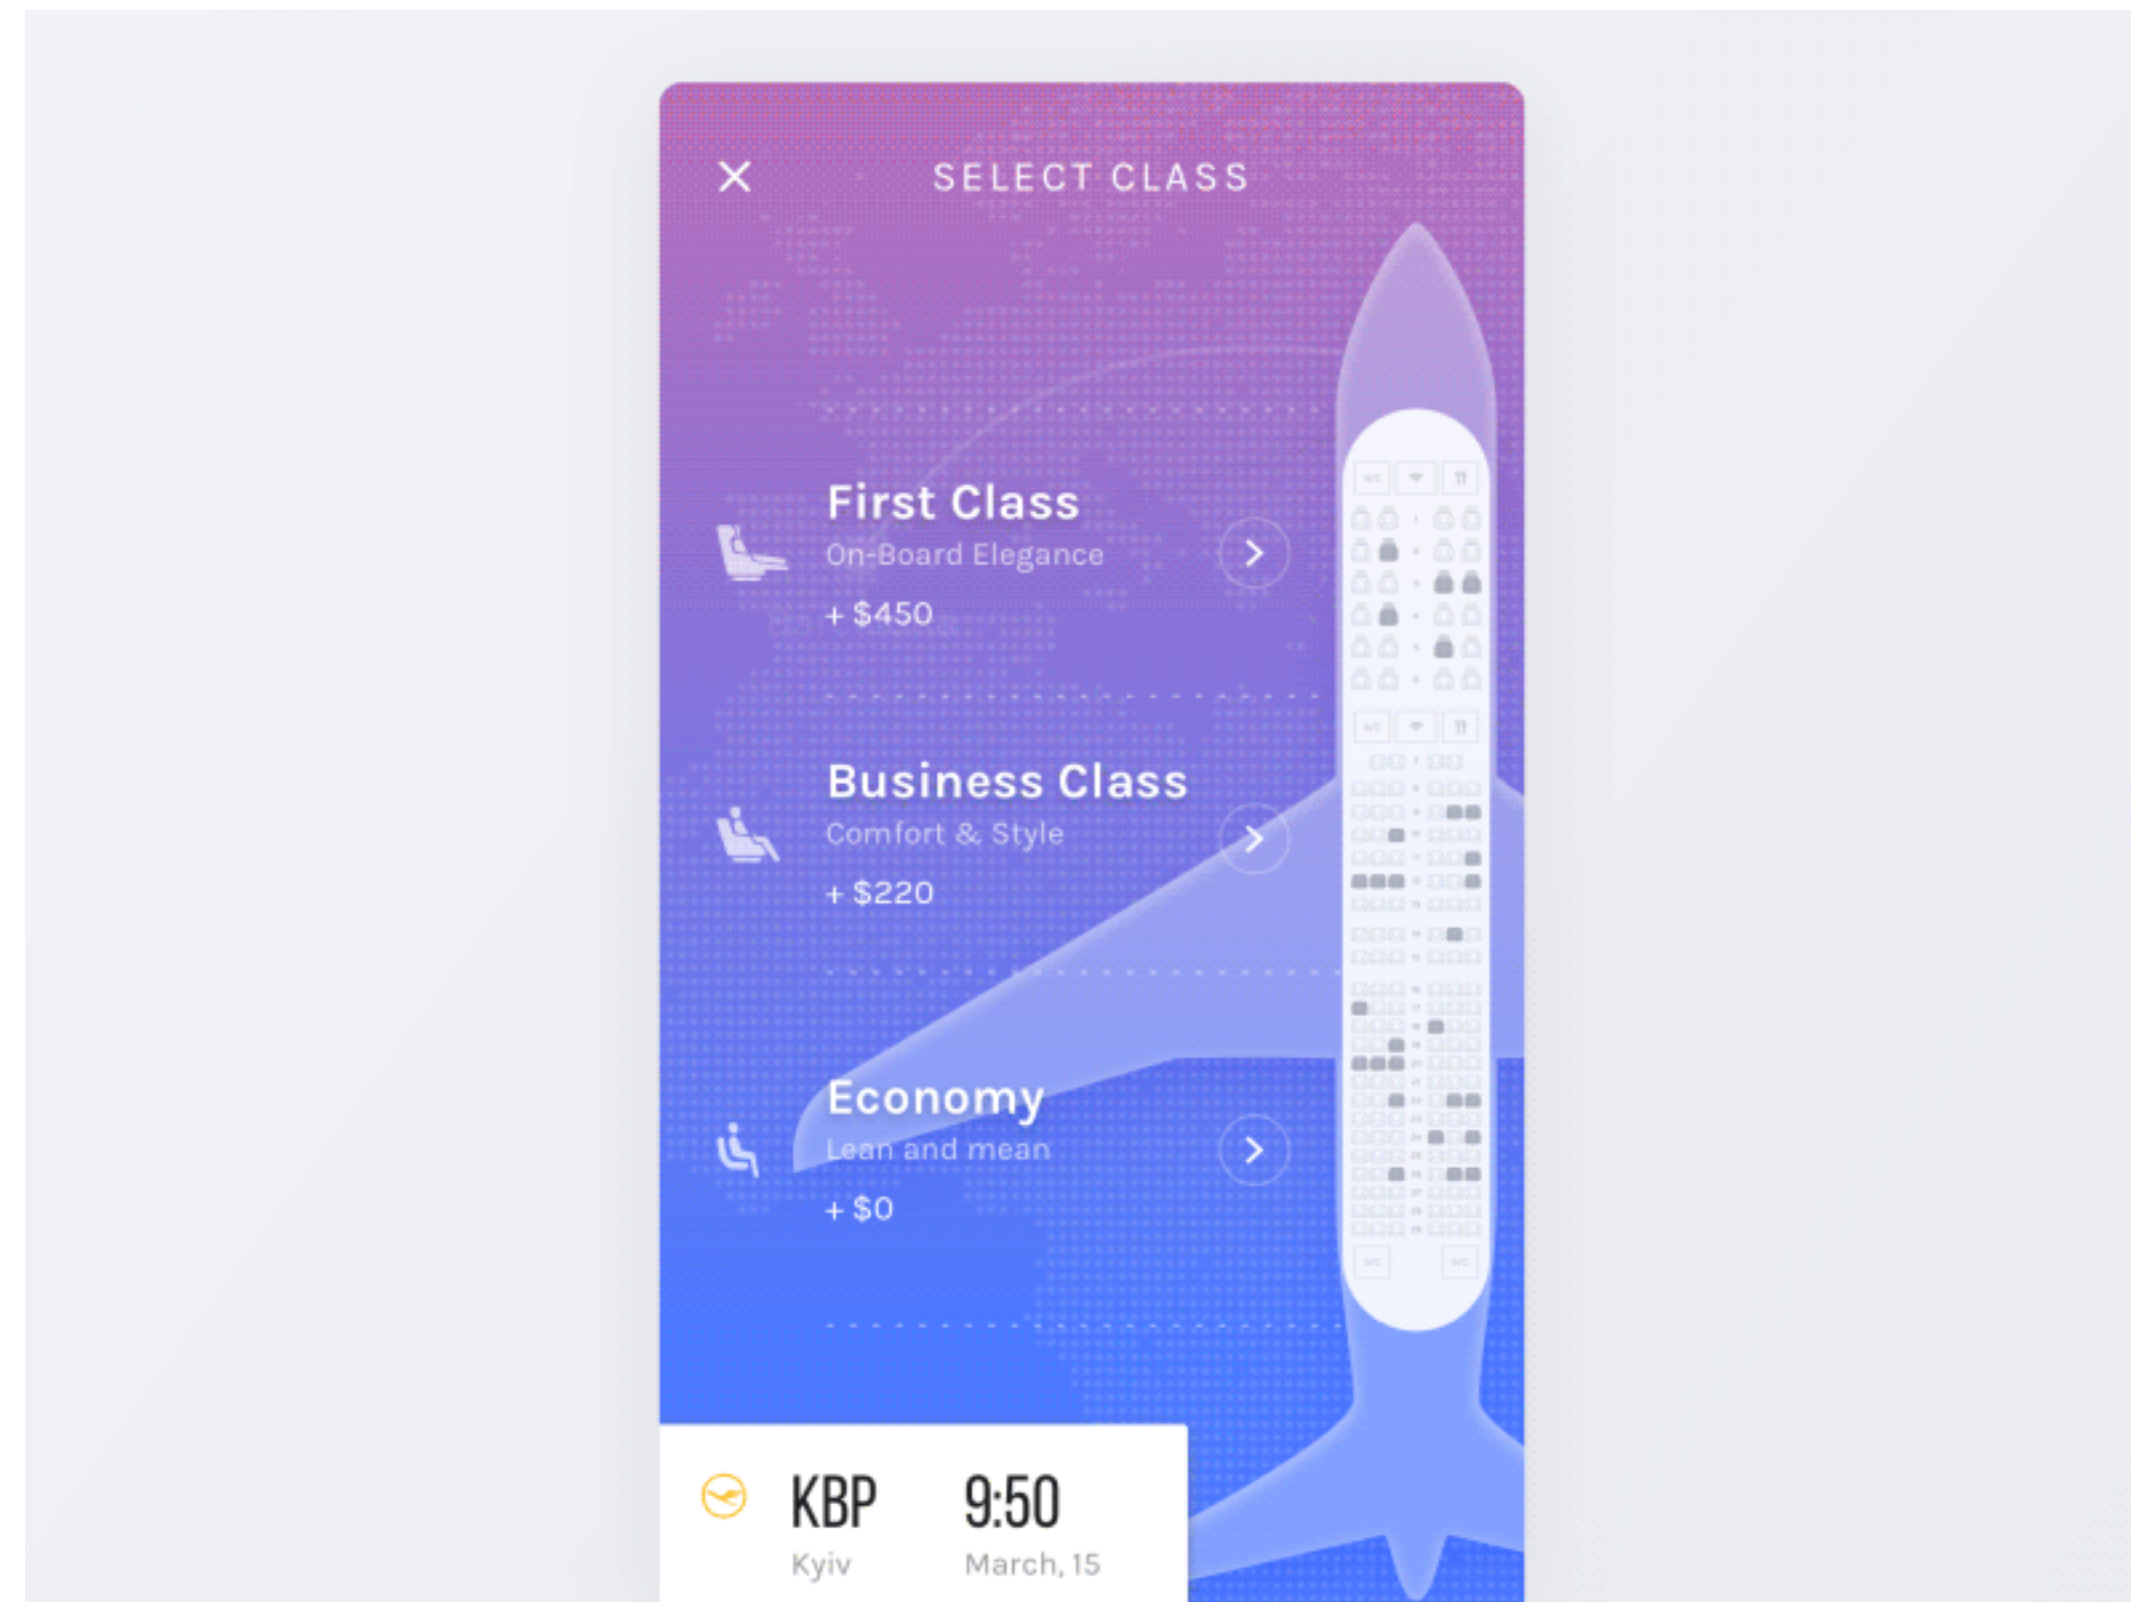

5. HELP PREVENT ERRORS

Does the system permit as few errors as possible?

6. SUPPORT RECOGNITION INSTEAD OF MEMORY

Does the system take the cognitive load off the user?

7. BE FLEXIBLE AND EFFICIENT

Can all user groups optimally use the system?

9. BE HELPFUL IN CASE OF A PROBLEM

Do messages help with the solution?

No results found.
Your search returned no results. Try removing filters or rephrasing your search.

Clear all filters

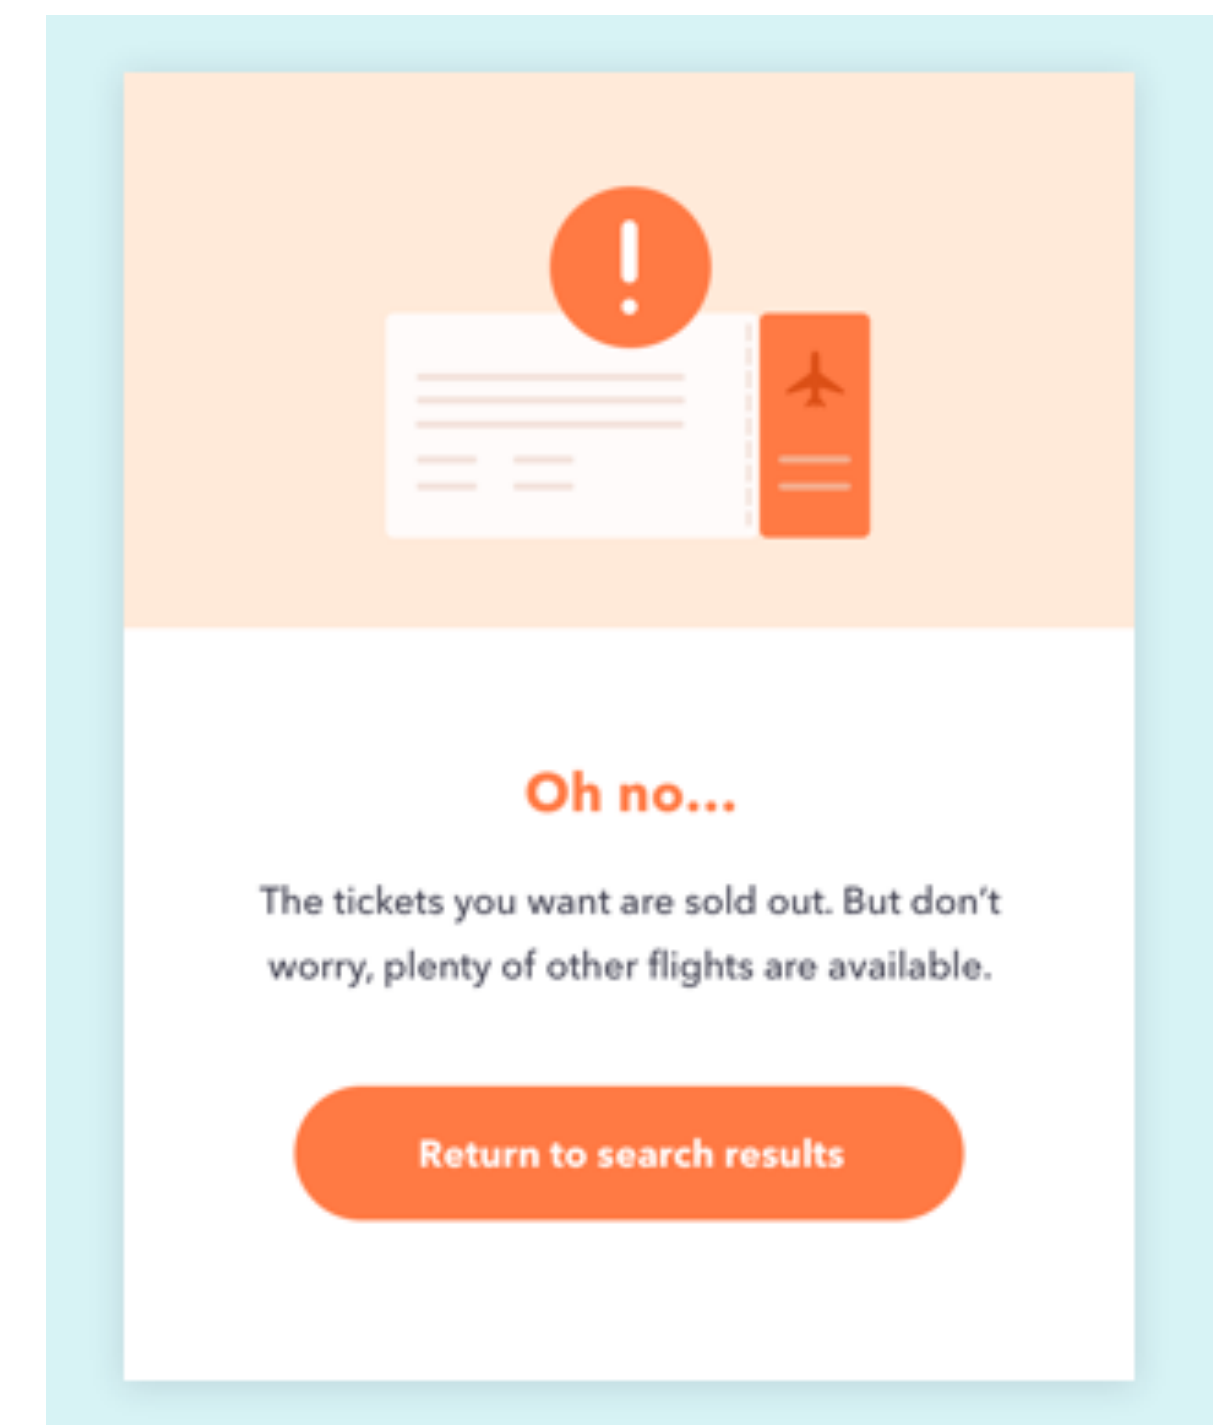

Hmm. We're having trouble finding that site.

We can't connect to the server at www.google.com.

If that address is correct, here are three other things you can try:

- Try again later.
- Check your network connection.
- If you are connected but behind a firewall, check that Firefox has permission to access the Web.

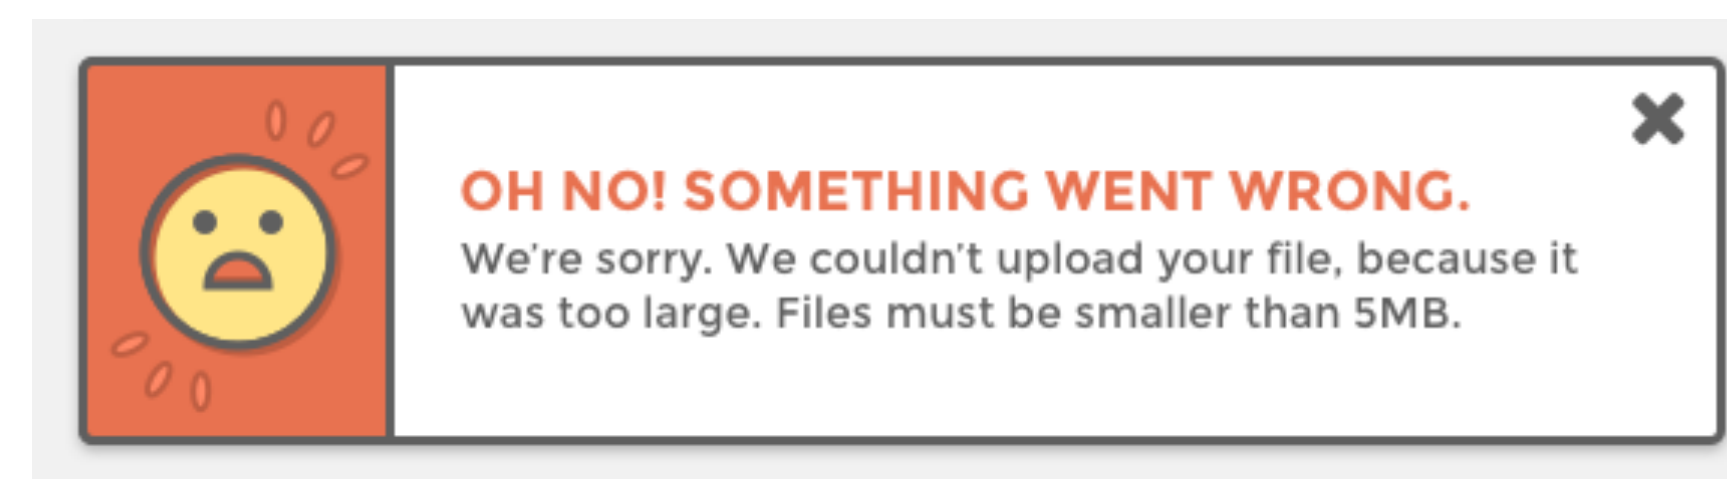

Try Again

Oh no...

The tickets you want are sold out. But don't worry, plenty of other flights are available.

Return to search results

OH NO! SOMETHING WENT WRONG.

We're sorry. We couldn't upload your file, because it was too large. Files must be smaller than 5MB.

10. SUPPORT IF HELP IS NEEDED

Is support available to the user at the right moment?

See each response [X]

Now you can switch between seeing a summary or each response one by one.

You can remove individual responses from this view.
