# THE ORDER OF CREATION

*The Sequential Order in How Humanity and All Conscious Beings Came into Existence*

Your desire to exist has you incoming . . .

## Point of Origin

You yet exist . . .  
**YOU ARE AN ENERGETIC STATE OF BEING**

The Point of Origin is the place from where all existing commences.

That desire attracts *Light-matter* on your inbound journey, which activates the beginning of you.

## Point of Inception

You physically exist . . .  
**YOU ARE THE LIGHT**

The Point of Inception is an interim place of existence only.

You arrive at the Point of Inception, signifying you have taken form via the elements your desire attracted.

## The Realm Of Light

You individually exist . . .  
**YOU ARE A BEING OF LIGHT**

The realm of Light is where you live your *initial existence*.

Your presence within the realm of Light shows your desire paved the way for you to exist in consciousness.

## The Realm Of Creation

You will exist yet again . . .  
**YOU ARE BECOMING A SOUL**

The realm of Creation is not a place where one resides. Its only purpose is for a soul's conception.

Your appearance within the realm of Creation, indicates *you* intentionally sought an *additional existence*.

## The Realm Of Truth

# DIMENSIONAL REALMS

POINT OF ORIGIN

# THE ORDER OF SOURCE

## ***THE ALL THAT IS*** **aka the Omnipotent Divine**

The *All that IS*, also known as the Omnipotent Divine, is *the Light* and *the Light* is *its* consciousness. It is that which affords all who exist the opportunity to come into existence. It is also that which inspired us each to exist as souls. Its consciousness—*the One Divine Mind*—is our highest consciousness, and that consciousness is the highest source of support we can utilize to sustain our wellbeing.

## ***THE OMNISCIENT DIVINES***

The Omniscient Divines, firstly, are the most conscious souls in all of existence. They are also the *Divine Creators* who gave all *beings of Light* the opportunity to exist as souls. Additionally, They are the ones who created all existing within the multi-realm Universe. Although, They are not the ones who created what exists within the realm of Humanity. Currently, there are seven serving within the realm of Truth, as the eighth has relocated.

# THE ONE DIVINE MIND

The One Divine Mind is the consciousness of the Omnipotent Divine, and it is the operating consciousness for all existing beyond Humanity's experience: all realms, dimensions, beings, and souls.

**Humanity's Existence is Lived Here**

With Humanity living in separation from the One Divine Mind, they would now need a means and way to have consciousness. Therefore, they were gifted their very own *minds*.
