To our Friends both near & Far Away:

2020 was a year full of unimaginable challenges and seemingly impossible hurdles for all of us. When we were informed that lockdowns would close the doors of our school, Global Leaders Primary (GLP), our team wondered what miracles it would take to ensure that our 250 students and their families made it through this challenging time safely in the rural villages where we serve. After having to cancel all in-person fundraisers including our annual gala, the obstacles to keeping our students engaged, healthy and safe and our Teachers and staff employed, seemed insurmountable... and then you showed up in the most generous and miraculous ways.

Because you showed up to stand with your friends far away through this crisis, over 1,000 vulnerable families received four tons of immediate food aid -- making National News in Uganda. When thousands of Teachers and school staff were laid off and sent home, YOU continued to Advocate for nearly 30 Teachers and staff at GLP each month, keeping them employed through lockdown so they could support their families. When we asked you to join us over the summer in launching the first (and only) Distance Learning Program in Amolatar District, YOU helped us purchase motorbikes, supplies and funded a training so that our students across 23 villages could receive weekly tutoring from their Teachers and continue learning while at home.

And finally, later this quarter, GLP will open its doors to welcome students back to their classrooms for the first time in nearly a year because YOU helped us “smash” our $20,000 #GivingTuesday goal to reopen our school safely.

For all of us at Far Away Friends, 2020 won’t be remembered as a year of challenges and pain, but as the year that we saw miracles unfold before our eyes. This past year, we saw the power of partnership, of global citizenship and most importantly, of friendship in action. Together, we demonstrated that no matter how far the distance, friendship has the power to impact lives forever.

In the deepest reaches of my heart, I know that our community -- the FAF-Family as we affectionately call our supporters, Advocates, volunteers & friends -- has made the most profound impact on the kids of Namasale, who through this crisis, saw “helpers” from across the world (that’s you!) and from their own communities (our Ugandan Programs Team are the real MVPs!) show up to make sure that they were safe, healthy and could continue learning through this scary time.

“When I was a boy and I would see scary things in the news, my mother would say to me, ‘Look for the helpers. You will always find people who are helping.’" -- Fred Rogers

Thank you for being a helper, a far away friend, and a passionate Advocate for educational equity across the world. #FORTHETHEKIDS.

With Tenacious Gratitude,

100% OF GLOBAL LEADERS PRIMARY SCHOOL TEACHERS STAYED EMPLOYED DURING THE PANDEMIC

While thousands of Teachers across Uganda lost their jobs when schools closed due to COVID-19, we chose to continue paying our Teachers with the support of our Advocate community. Thanks to the support of friends like you, our Teachers at Global Leaders Primary were able to stay healthy, safe and continue supporting their families (and students!) through the height of the pandemic.
One of our first initiatives at the start of the pandemic was to provide emergency food relief to vulnerable families and community members across Amolatar District who were facing hunger due to COVID lockdowns, extreme flooding and locust swarms. Together we raised enough funds to purchase over four tons of Posho - a staple food in Uganda - to be distributed in partnership with local leaders. Because of our early action taking, NBSTV (a national news station in Uganda) aired a segment on our initiative in Amolatar!
100 GLOBAL LEADERS PRIMARY STUDENTS RECEIVED VISITS FROM THEIR TEACHERS DURING THEIR TIME AT HOME

Thanks to our community of Advocates and friends who participated in our first ever Pathways to Education Virtual 5K Fun Run together we were able to fund new motorcycles and bicycles for our teachers to launch their own distance learning program. Traveling across 23 villages, our teachers paid home visits to over 100 GLP students during lockdown.
A SAFE REOPENING

In order to bring our students back to school safely, we asked you to join us on #GivingTuesday in raising $20,000 to renovate Global Leaders, including providing hand washing centers, socially-distanced desks, bat-proofing our buildings and constructing a new School Clinic. Together online in less than 24 hours, we raised over $30,000 -- smashing our original goal and making FAF history!
THE FUNDS THAT FUEL US

83% of our admin costs in 2020 were covered by a private donor which means 87% of public donations in 2020 went directly to Uganda.

INCOME: $155,833.07

83% of overhead covered by a private donor

EXPENSES: $175,194.39

*While expenses are higher than 2020 income, we did not experience a deficit due to year-end gifts carried over from 2019*

THANK YOU, ADVOCATES

Our work is made possible by our dedicated community of over 100 Advocates whose recurring gifts of $25+ per month help to keep our Teachers & Staff paid, our students healthy and supported, and our mission fueled. Together, we're ensuring that every child has the tools to break the cycle of poverty forever.
