**Action St. Louis Power Project Endorses Congresswoman Cori Bush for Re-Election**

*Action St. Louis Power Project is a grassroots racial justice organization that seeks to build political power for Black communities in the St. Louis region.*

July 12, 2022 – Action St. Louis Power Project is proud to endorse Congresswoman Cori Bush for re-election. As our first federal endorsement, we are proud to support a candidate from our community, who knows firsthand the issues our region is facing. Since her historic election, Congresswoman Bush has been the fierce, compassionate and bold leader our region needs.

Action St. Louis Power Project has a history of endorsing candidates that are relentless in their pursuit to strengthen our communities and pass policies that ensure our people are well. Our organization believes that Congresswoman Bush is the best person to lead, because she has the experience to prove it. Born out of movement, she is a bridge between advocacy and activism. She’s been in our shoes - from struggling with housing conditions and evictions to fighting for her own reproductive freedom. Connected by our collective struggles, she is one of the most important elected leaders of our generation.

As a mounting conservative agenda threatens our communities, our region deserves leadership that is unapologetic in their commitment to loving, caring and fighting for the most vulnerable.

Congresswoman Bush has a track record of standing up brazenly in the face of injustice. Earlier this year, she slept on the steps of the Capitol to demand an extension of the federal eviction moratorium for the hundreds of thousands of families and individuals who were at risk of losing their homes during a global pandemic. She has successfully moved millions of dollars to our communities fueling economic development and expanding access to jobs. We know that when she’s re-elected, she will continue to be a leading voice on issues like reproductive freedom, criminal justice reform, climate change and voting rights.

Our region demands daring, transformational leadership that is accountable to the people. We believe that Congresswoman Bush is prepared to meet the challenges of this moment - a moment in which we must fight for our bodily autonomy, protect our communities and defend our democracy.

Join us in re-electing Congresswoman Bush for Missouri’s 1st Congressional District on August 2nd.
