HAVE YOU ★ VISITED YET? ★

The amazing Barker's Foodstore & Eatery is situated in the heart of picturesque Geraldine on the route through to the lakes and Queenstown. The perfect place to stop on your backyard exploration and experience hospitality the Barker's way!

Their comprehensive menu and cabinet food in the Eatery ticks lots of boxes from gluten free to vegan and from breakfast to sweet treats!

It provides the ideal testing platform for new products and for gleaming market/customer insights for the Foodservice Team.

Did you know...

our bakery range is bake and freeze-thaw stable, which means, when baked, the jam or filling is designed to withstand any changes when exposed to high temperature, or, if deep frozen the item will thaw without any loss of quality from its original state.

We understand that baking applications can be diverse and demanding so crafting for functionality is key.

BEST BUY

The 'BEST BUY' brand has been developed by the team at Barker's in response to a market need for products that are more affordable but still produce high quality results.

These products have been carefully crafted for customers that enjoy the current Barker's Professional range but are unable to fit the current premium products into their budgets.

The 'BEST BUY' products are still manufactured by Barker's and meet our quality criteria. Lower prices are made possible by optimising recipes with the most cost-effective ingredients whilst still producing good quality, full flavour products. Our aim is to make our products readily available to everyone within the foodservice industry regardless of their budget requirements.

JAMS & MARMALADES

It all started over 30 years ago on the Anathoth farm where the jams and pickles were made in simple pots and sold at the local weekend market. The locals loved the big, bold, real fruit flavours and kept coming back for more. So we've kept the traditional jam recipes and the same very simple ingredients. In foodservice, because our customers wanted consistency we have added just a touch of pectin.

PICKLES & RELISHES

It's only natural that we use quality produce for our pickles and relishes, and make them nice and chunky with lots of real fruit and vegetables and just the right amount of spices. Just like you would make yourself if you had the time. But not everyone can afford the time and not everyone will find the enjoyment in the actual doing, so we do it for you. All Anathoth Farm Chef Series pickles and relishes are preservative free.
