

Quasar Science Q-Lion Lithium Ion Battery LED Lamps

Description

Quasar Science Q-Lion Lithium Ion Battery LED Lamps are Bi-Color battery powered LEDs that switch between 3000K and 5600K with the push of a button. They come in 7", 12", and 24" sizes. A single button press cycles through the dimming levels 100%, 75%, 50%, 25%, 10%, and OFF . Two magnetic feet are built in for easy mounting. The run time is about four hours on full charge.

Features:

- 7", 12", and 24" options
- Magnetic Feet
- 3/8" Threaded Receiver
- Recessed Power Button
- Kill switch to disable power button when traveling (V2)
- QC 3.0 Micro USB Charging Adapter
- Rechargeable Lithium Ion Battery
- Battery Level Indicator
- Flicker Free
