Backup & Recovery As a Service

Secure, scalable and fully managed backup and recovery solutions.

Delivering Data Backup and Disaster Recovery as a Service

Managing the data plane is complicated and time consuming. With expanding workloads both on-premise and in the cloud, business continuity planning can be extremely complex.

At Optec, we've teamed up with Assured Data Protection to eliminate the complexity, expense and management of in-house backup and data protection. Our solution combines the award-winning Rubrik technology with our expertise to meet any organisation's data protection and disaster recovery requirements. We deliver backup, disaster recovery and business continuity to customers ranging from 5TB to multiple petabytes, across any number of sites, from on-premise to hybrid cloud.

Our Solutions

We deliver a range of services to manage the data protection requirements of your business, whether on-premise or in the cloud.

| **Backup as a Service**	**Disaster Recovery as a Service**	**Cloud Backup for Office 365**	**Fully Managed Service**
Automated flash-speed backups with instant file and server level recovery.	Instant server recovery on and off site with near zero recovery times.	Fast and simple Office 365 backup featuring advanced cloud-based storage.	Fully managed data backup, recovery and archive tailored to your unique needs.

Bringing Data Protection into the Modern World

Production Servers — Rubrik — Replication & Long Term Retention

Test/Dev Servers — Rubrik — DR Servers

Our data protection solutions are powered by Rubrik who offer leading cloud data management technology that's simple to use, cost-effective and scalable. Rubrik's capabilities allow businesses to transform their data management and security without the complications of traditional solutions.

Benefits of outsourcing data backup and recovery:

- Reduce upfront and ongoing costs
- Improve data backup and recovery times
- Eliminate labour-intensive tasks
- Access data protection expertise

assured data protection

Rubrik Features and Benefits

Simple Set Up	Rack and go with automated discovery	Almost zero down time on installation
Policy Driven	Easy to manage, assign SLA policies	Dramatically reduce daily backup management time
Instant File Discovery	Allows files to be searched with 'Google' style predictive search options	Time saved from finding files on backup disks and tapes
API First Architecture	Manage all data through an easy to use HTML 5 interface	Stay in control of all of your data, anywhere, anytime
Near Zero RTO	Mount VM's and databases directly from the Rubrik platform	Reduce recovery time from hours to just minutes
Scale as You Go	Rubrik enables simple, scalable, linear growth on demand	Grow your data centre as your business grows
High Security	All Rubrik appliances come with software encryption	Peace of mind your data is protected and compliant

Save on Costs & Time

Up to 50% immediate hard savings

Rapid installation and deployment

Up to 70% data centre footprint reduction

Two-three minutes daily management time
