**CLEAN THOROUGHLY + OFTEN**
Cleaning the surfaces in your home thoroughly and often will reduce and remove disease-causing germs, protecting you and your family.

**SURFACES**
- Kitchen counters, faucets, fridge, microwave + stove doors and handles, cabinet knobs + handles
- Bathroom counters and sinks, faucets, toilet seats, toilet handles
- Non-porous tables + desks
- Frequently touched surfaces like light switches, door knobs + handles, chair backs, stair railings, cabinet handles

**STEPS**
- Spray soap + water on surface
- Scrub with cloth to remove dirt + germs
- Wipe clean with cloth

**TOOLS**
- Soap + Water or all-purpose cleaner featuring Safer Choice logo
- Microfiber Cloths folded in half and half again for 8 sides of cleaning

**PRECAUTIONS**
- Ensure Children and Pets are not in the room
- Open Windows or turn on fan for ventilation
- Wear Gloves and Mask for protection
- Avoid Disinfecting If Pregnant, or use hydrogen peroxide-based safer disinfectant
- Never Use Disinfectants on food or areas where food is prepared, such as cutting boards

**STEP 2** DISINFECT IF SOMEONE IS SICK
With a sick loved one at home, you’ll need to disinfect your surfaces after cleaning them in order to protect other family members. Cleaning reduces the number of disease-causing germs, and disinfecting kills remaining germs.

**SURFACES**
- Kitchen counters, faucets, fridge, microwave + stove doors and handles, cabinet knobs + handles
- Bathroom counters and sinks, faucets, toilet seats, toilet handles
- Non-porous tables + desks
- Frequently touched surfaces like light switches, door knobs + handles, chair backs, stair railings, cabinet handles

**STEPS**
- Apply the disinfectant to the surface
- Leave the surface glistening wet for recommended contact time on product label
- Set a timer to ensure the correct time
- Wipe it dry with a clean microfiber cloth

**TOOLS**
- Look for a Safer Disinfectant containing one of these active ingredients:
  - citric acid
  - ethanol
  - hydrogen peroxide
  - isopropanol
  - l-lactic acid
  - peroxycetic acid
  - sodium bisulfate
- Microfiber Cloths folded in half and half again

**STEP 3** LOCK IT AWAY + WASH YOUR HANDS
Before, during and after cleaning and disinfecting, you need to protect your children and pets from accidentally accessing these products, which can be very harmful to them.

**STORAGE STEP**
- Safely store cleaning + disinfecting products away from the reach of children and pets

**FINAL STEP**
- Thoroughly wash your hands with soap + water for a full 20 seconds
