

Solaria® Extends Warranty on PowerXT® Premium Solar Panels to 30 Years

Solaria Delivers Superior Reliability with its Industry-Leading High Performance Solar Panels

FREMONT, CA, MAR. 1, 2022 –[Solaria Corporation](#), a global provider of advanced solar energy products, today announced that the warranty the company offers on its patented, flagship PowerXT® 400 Series premium solar panels has been increased to 30 years. With its sleek, Pure Black™ design, Solaria PowerXT is an attractive, efficient, reliable, high-performance panel that generates an industry-leading power yield.

“Our customers love the performance and sleek design of our premium PowerXT solar panels,” said CEO Tony Alvarez. “We know that our Solaria panels are as reliable as they are attractive and efficient, and we couldn’t think of a better way to demonstrate that than by providing a 30-year warranty.”

Built on proprietary technology and assembly techniques, Solaria PowerXT® solar panels deliver outstanding aesthetics, superior power and unmatched performance. Patented cell design and proprietary module architecture enables Solaria PowerXT panels to provide maximum energy output. Optimized shading performance and high energy yield provide excellent value in clean electricity generation, especially on space-constrained roofs. Solaria PowerXT’s Pure Black™ technology ensures deployment of an attractive rooftop solar system with excellent curb appeal – now backed by a 30-year warranty.

"Knowing that the Solaria PowerXT solar panel comes with a 30-year comprehensive warranty on parts, power and labor is one of the many reasons for selecting this innovative panel," said Steve Pariani, owner of Solar Pro Energy Systems, a premier solar installation company in California. "Solaria's technology is outstanding, and their extended warranty is further evidence of PowerXT's quality and reliability."

Solaria PowerXT solar panels are available through leading solar and electrical distributors in North America.

About Solaria

Solaria Corporation is a US-based solar PV technology and systems company with a 20-year history in solar power innovation and product development. Solaria is paving the way for distributed, clean power generation by delivering state-of-the-art engineering and automation to provide superior field performance and unrivaled aesthetics. Solaria is headquartered in California, USA. For more information, please visit www.solaria.com.
