i still dont know if im supposed to
be here. where did i come from. why
am i here. now. who am i meant to
be. what am i meant for. only the
stars know. the stars have always
been. they see everything. if stars
could talk. stardust is in all of
us. we are all the same on the
inside. hating others is hating me
and you and us. you have an
easier time hating and hurting
what you dont know. on the
inside we all know each other.
we are connected. we are
siblings of the moon and the
stars. if stars were alive how
would they feel. i guess in some
way they are living. burning. but
for what? why? why are any of us
alive. burning. breathing. if i
could hold a star would i finally
feel at home? would they welcome me?

the

end

are

all
