

Inpatient Infectious Disease

Support for Local Providers, Pharmacy and Infection Control

Board-Certified Infectious Disease physicians work collaboratively with local medical and nursing staff providing consultative care for complex infectious disease patients, reducing the need to transfer for ID consults.

Provider and Staff Satisfaction

Access to infectious disease expertise gives local medical and nursing staff greater comfort caring for patients with unknown infections or resistant organisms.

Expert Care. Close to Home.

Bottom Line Improvement

Hospitals retain inpatient and ancillary revenue otherwise lost to outmigration when patients are transferred for ID consults. Infectious disease consults have been shown to reduce readmission for complex infectious disease patients.

Solution Spotlight

Flexible coverage options are available for specific needs and for hospitals of all sizes

Infectious Disease Physicians provide clinical subject matter expertise

Infectious Disease Physicians review patient medical records, labs and imaging

Documentation and order entry in the local medical record

Telemedicine consultation provided for a variety of adult infectious disease conditions

Licensing and credentialing assistance provided as part of program startup

Assistance with hospital acquired infection strategies

“ I feel confident that my patients’ complicated ID issues are being treated appropriately! ”
