Classically designed, the CVL-1064 desktop microphone is ideal for anyone using Voice Over IP or web video conferencing. Leaving a small footprint on your desk, the CVL-1064's on/off switch is easily accessible for a quick mute option. The uni-directional (cardioid) mic picks up the slightest whisper, while the boom is upward and downward adjustable for your optimal speaking position.

Compatible with:

PC computers with 3.5mm microphone input jacks
