SUSTAIN SC SUSTAINABILITY POLL

Pee Dee

Sustain SC works at the intersection of environmental conservation and economic development, creating pathways for responsible growth that benefit both the state's economy and environment.

Renewable Energy

- **70.6%** of respondents support South Carolina adding and using more renewable energy resources such as new nuclear, hydrogen, biomass, solar and wind.

Conservation Efforts

- **59%** of respondents believe state government should hold primary responsibility for enforcing regulations that protect wetlands and sensitive areas.

Issues of Concern

- **90.9%** of respondents support state legislative funding to assist those affected by Hurricane Helene and other natural disasters.

Clean Energy

- **57.1%** of respondents agree on the need to invest in both traditional and renewable sources of energy.

SURVEY METHODOLOGY

The 2025 SC GOP Primary Survey was conducted by Online (Text-to-Web) Interviews from January 28 - February 2 among a random sample of 1200 likely Republican primary election voters. The survey has a margin of error of +/-3 percentage points. Results are weighted. Some percentages in crosstab reports for this poll may not add to 100% due to rounding.
