

Donating Cryptocurrency to Your Donor-Advised Fund is Easier Than Ever

Renaissance Charitable Foundation Inc. has partnered with The Giving Block to make donating cryptocurrency to your donor-advised fund easy. Unlike traditional transaction methods such as credit card payments and ACH or wire transactions (or worse—checks!), which can take days to process, donating bitcoin and other cryptocurrencies only takes about 10 minutes.

Additionally, donating cryptocurrency is a non-taxable event, meaning you do not owe capital gains tax on the appreciated amount and can deduct it on your taxes. This makes Bitcoin and other cryptocurrency donations one of the most tax-efficient ways to contribute to your donor-advised fund to support your favorite cause. You can donate Bitcoin, Ethereum, ChainLink, Litecoin, and more.

When you donate cryptocurrency to Renaissance Charitable Foundation Inc., we immediately convert your gift to US Dollars. The net conversion value is then transferred to your donor-advised fund's investment account.

Please note that all cryptocurrency donations are non-refundable.
