Things you should know before attending Sunday services
Updated June 20, 2022

Before the service

1. Approach the church from the east entrance, which will open at 9:00 am.
2. An usher will take attendance by asking your name. This allows for contact tracing to occur and helps our church attendance recordkeeping.
3. There are masks, hand sanitizer and gloves available on the tables in the narthex.
4. The balcony is “off limits” due to live streaming personnel and security.
5. Restrooms are open and available for all attendees.

During the service

6. Please make sure your cell phone is silenced.
7. Offerings can be placed in the deposit boxes located in the back of the sanctuary or by donating online through our website.

After the service

8. Please recycle your programs and dispose of any trash in the appropriate cans located in the narthex.
9. Make sure you have all of your belongings.

Please note these procedures are based on the current governmental guidelines at this time and are subject to change if there is an outbreak in our area.
