Beware Project 2025

Beware of the Republican plan called Project 2025. Why? Trump pledged to overturn the national right to abortion in 2016 using far-right conservative judicial appointees and he was successful. Now let's see what is planned in 2025 if Trump wins: the plan is called Project 2025, written by members of the Heritage Foundation.

The Heritage Foundation is an anti-reproductive rights, ultra-conservative group with close ties to Trump. Many, many of their members worked in high positions in the Trump Administration. They held over 137 positions. Project 2025 and the Heritage Foundation advocate ultra-conservative values that would take our society back to the cultural norms of years ago when women weren't allowed to work outside of the home. Here are just a few of the changes Project 2025 plans to put into effect if Trump is elected:

Trump and his Heritage Foundation plan a national ban on abortion: With Roe V. Wade overturned, it is up to each individual state to determine abortion policy. Nevada law protects the right for women to choose. In addition, there will be an amendment to Nevada's constitution protecting abortion rights on this November ballot (please vote yes). But a national abortion ban would override our state constitution and law. Abortion would be outlawed in Nevada under Trump and Project 2025.

If Trump and his Heritage Foundation cannot get a national abortion ban passed in Congress they will use the federal government to ban abortion in all 50 states. They plan to ban the interstate shipping of medical abortion pills and the medical equipment doctors use to perform abortions, effectively ending the procedure nationwide.

There are many other harmful proposals in Project 2025. If Trump is elected, they plan to eliminate Biden's \$35 cap on insulin – which saves Nevadans thousands of dollars. They plan to end Medicare's ability to negotiate the price of prescription drugs, costing millions to the federal government and putting money in the pocket of large pharmaceutical companies. Another Project 2025 plan is to give employers options to limit paying overtime to employees. Tax cuts will be given to billionaires while the middle class will pay more than their fair share. Research Project 2025 on the internet to find out more. I can remember my old conservative, independent minded dad saying, "I'm not going to let the church ladies run my life." My dad was right, and we shouldn't let the Heritage Foundation and their deal with Donald Trump dictate our lives either. Vote against these policies by voting against Donald Trump. Vote for the Democrat or we will all be sorry.
