

The Charlotte Observer

I have to disagree with Debra Saunders' review of the debate, "ABC moderators go after Trump, Harris remains blurry," September 11, 2024. VP Harris was very specific about ensuring reproductive freedom, rejecting tariffs Trump would place on goods coming into the country, offering a \$50,000 tax deduction to start-up small businesses, expanding the Child Tax Credit to \$6,000, and continuing Medicare's limiting out-of-pocket prescription drugs costs for seniors at \$2,000 a year.

What more do you need to know about these two candidates? On the biggest issues affecting your everyday life, don't you already know what these candidates stand for?

I believe in personal freedom, keeping the government out of my bedroom and doctor's office, and providing economic opportunity for everyone, not just the wealthy. That's how I'm voting this November, because those are the things I want for myself, for my neighbors, and for my children.
