**Teaching Scores 2011 – 2024**

**These are my student evaluations for the courses I taught from 2011 until 2024. I taught three courses – ACC-821, ACC-823, and ACC-825 – in the Masters of Accounting Program at MSU. Most of the students in these classes were first-year graduate students, although all three courses had undergraduate students from the MSU Honors College as well. All three courses could be coded (student choice) as ITM (Information Technology Management) instead of ACC (Accounting).**

**However, both ITM and ACC students actually sit in the same class and are graded on exactly the same basis.**

# ACC-821 (optional label is ITM-821)
