

THE STACK PRO

- 3,000 lb. capacity per shelf
- 6 ft. tall with 5' x 10' footprint – stackable up to 12 ft.
- designed for customizable shelf spacing
- intended to replace the traditional, clunky pallet-racking method of storage
- focused on productivity with plenty of space for multiple material types and configurations
- engineered with strategic lifting slots for effortless material loading/unloading

THE STACK MAX

- 5,000 lb. capacity per shelf
- 6 ft. OR 8 ft. tall with 5' x 10' OR 6' x 12' footprint – stackable up to 20 ft.
- designed for heavyweight materials
- intended to replace the piles of sharp sheet metal spread around the production floor
- focused on productivity with plenty of space to organize various sheet sizes and gauges
- engineered with strategic lifting slots for effortless sheet metal loading/unloading
