

Nature's Barcode™

Supply Chain Due Diligence Services

DoubleHelix offers a comprehensive suite of services encompassing the entire due diligence process, from system set-up and training, data collection and verification, risk assessment, and risk mitigation, through to supply chain monitoring, and stakeholder communications.

Our goal is to help you demonstrate compliance while maximizing the value derived from the due diligence process to your entire business.

Established expertise

Established in 2008, with over 15 years of experience in the forest products and agricultural commodities sectors, DoubleHelix and its partners possesses the knowledge and expertise to guide you towards long-term sustainability and compliance.

Service Applications

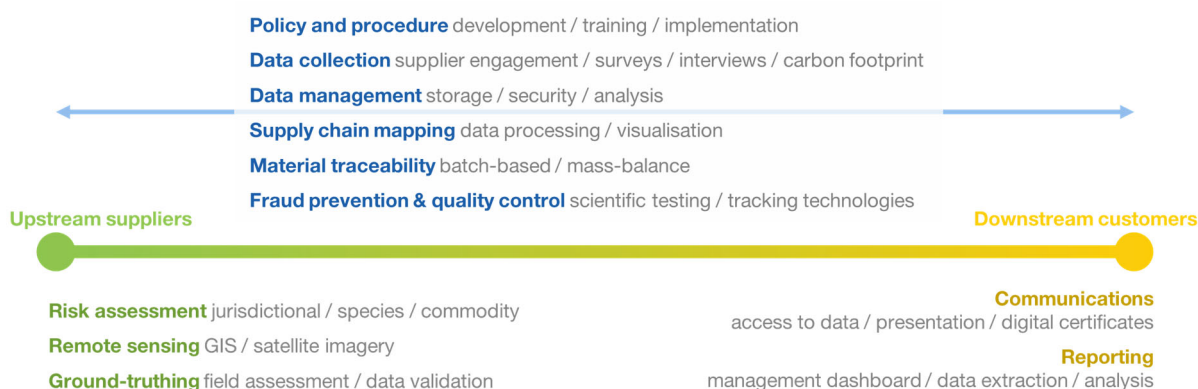

A growing number of Due Diligence regulations are being introduced world-wide, obliging businesses to thoroughly investigate their supply chains, assess the environmental and ethical risks associated with their products, and take steps to mitigate or eliminate those risks.

Scope	Regulations
Deforestation-risk	EU Deforestation Regulation; UK Environmental Act; US FOREST Act.
Timber legality	EU and UK Timber Regulation; US Lacey Act; Australian Illegal Logging Prohibition Act.
Forced labor / human rights	UK and Australian Modern Slavery Acts; ILO Conventions.
Responsible finance / anti-corruption	EU Sustainable Finance Disclosure Regulation (SFDR); US Foreign Corrupt Practices Act (FCPA); Investment Due Diligence.
GHG and climate reporting	EU Directive on Corporate Sustainability Reporting; National Net Zero and GHG reporting requirements.

The Nature's Barcode™ approach

Based on principles of product traceability and supply chain transparency, DoubleHelix deploys a range of tools and methodologies to meet the varied due diligence challenges our customers face. This toolkit is called Nature's Barcode™.

The Nature's Barcode™ toolkit

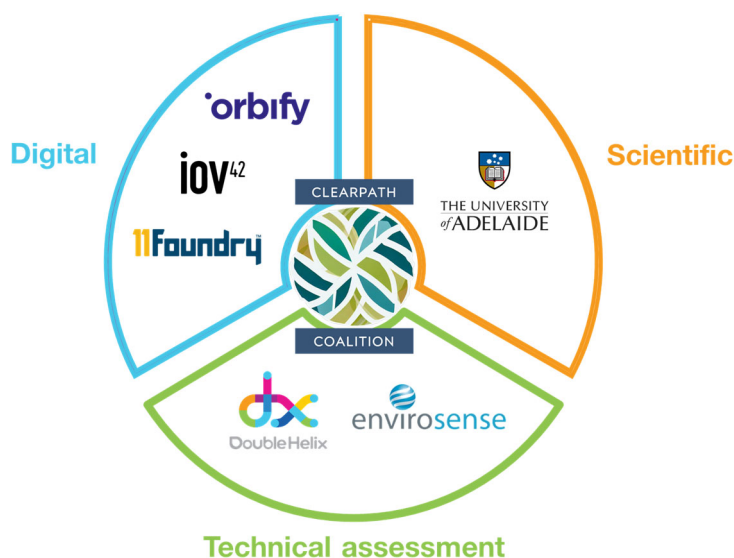

Enabled through partnerships

Collaboration is at the core of our approach. We work closely with specialist organisations that are recognised experts in their respective fields.

Our partnerships encompass DNA and isotope testing, data management and geospatial analysis platforms, as well as experts in social assessments and Greenhouse Gas (GHG) emissions reporting.

This approach ensures that our customers have access to a wealth of expertise through a single point of contact.

Global coverage, local insights

Our global network of expert staff and associates extends across Africa and Latin America, with dedicated offices in the United States, United Kingdom, Singapore and Indonesia. This geographical proximity to your supply chains allows us to understand the intricacies of local regulations, cultures and language. This in turn enables us to create and implement customised solutions that are respectful of your existing supplier relationships, but keep you ahead of the curve.

“Choose DoubleHelix as your guide to the world of due diligence”

Complimentary Training & Consultation

Contact us today and take your next step towards effective supply chain due diligence.

We're offering a free training session and consultation on the EU Deforestation Regulation, tailored to your business.

Take this opportunity to gain insights and learn what it takes to demonstrate compliance.
