WARWICK CEMETERY ASSOCIATION
INTRODUCES
CREMATION GARDEN AND COLUMBARIUM

The historic Warwick Cemetery is located off Route 94, just South of the Village of Warwick, New York. In 2015, the Warwick Cemetery Association erected a Cremation Garden to create memorial options for those who chose cremation rather than a burial.

We have created a beautiful place for remembrance for those who call this beautiful rural community home. We encourage you to come and visit the garden, which is set on a rise amongst our magnificent trees. Visitors will enjoy views of both the older and newer sections of the cemetery, as well as the surrounding hills and countryside.

We are planning to host a dedication and open house on May 25th, 2017 at 4 p.m., at which time you may come and hear more about it.

The Cremation Garden offers various options for memorialization. The columbarium installations provide niche spaces for both individuals and families. There are several granite benches and other classically elegant monuments to choose from. For those who wish to have their remains returned to the Earth, there is a plot of river rocks for scattering. A tasteful bronze memorial tree beside the scattering area provides spaces for inscribing names.

We have several photos of the location which can be viewed at our website: www.warwickcemetery.org. We also invite you to visit and see for yourself the beautiful area we have created in our cemetery. For further information, please feel free to contact Donald Ruhl at (845) 986-4756. If he is not in the shop, kindly leave a message and he will return your call. You may also send inquiries via email to: info@warwickcemetery.org
