

PL+US

The following small business owners have added their names to the urgent call for a comprehensive paid leave program. These were presented to Senator Patty Murray, Chair of the Senate Health, Education, Labor and Pension Committee on August 5, 2021.

This crisis has given us a unique opportunity to build stronger and more equitable workplaces for working people, families, and businesses, while investing in our nation's economic recovery. We urge Congress to meet the moment by passing a comprehensive federal paid family and medical leave policy that provides long-term health benefits and economic security to all American families and contributes to the vitality and sustainability of our businesses.

Over 530 small business owners either signed [this longer letter](#) at PL+US or this longer letter at [Main Street Alliance and Small Business for Paid Leave](#).
