

## Memorandum of Understanding

Thank you for the opportunity to place Bluebird nest boxes on your property. You will be providing valuable nesting space for a charismatic species that was nearly extinct in the seventies and eighties!

A representative of \_\_\_\_\_ (Hereinafter referred to as "Host") will place the nest boxes in locations deemed suitable by a Virginia Bluebird Society (VBS) member. Host agrees to ensure the nest boxes are monitored and nesting activity recorded weekly during the nesting season (March through September). Host agrees to ensure that the breeding activity data is reported to the VBS State Coordinator at the end of the nesting season.

Host agrees to report any needed repairs or maintenance of the nest boxes to the VBS State Coordinator. VBS will repair and maintain the nest boxes and will remove them immediately at your request or when they are no longer being monitored during the nesting season.
