SUSTAINABLE STRATEGIES FOR YOUR FIRST 100 DAYS

Foundational Work
- Champion a climate resolution with a greenhouse gas reduction goal to demonstrate climate action is a priority for your administration
- Announce a council resolution on environmental justice, recognizing that communities of color have experienced disproportionate environmental injustices and outlining steps the city will take to plan for and protect the health of the entire community

Energy Efficiency
- Establish a city-led energy efficiency program to drive municipal energy savings, community education, and greenhouse gas emissions reductions

Renewable Energy
- Announce a commitment to move to 100% renewable energy for municipal operations and rooftop solar initiatives for municipal buildings
- Commit to SolSmart designation making your community solar-ready

Transportation
- Lead an initiative to become an “EV Ready” city by transitioning municipal fleets to electric vehicles and by investing in electric charging infrastructure for the entire community to utilize

Land Use
- Commit to improving and expanding the community’s green resources and tree canopy by announcing a tree canopy assessment and expanded public parks and forestry plan
