

MOON RING

Pure silver ring

Design by: Marja-Liisa Okko

The Moon ring is the result of a lucky accident and a creative mind.

In the shards of a broken teapot, Marja-Liisa Okko found the parts and inspiration for the Moon ring, a minimalist pure silver design with a maximum expression of the circle's strong visual impact.

An opportunity taken in the midst of a mistake, reshaped and refined into a beautiful jewelry. Preferably worn at all possible occasions.

Moon is designed by Marja-Liisa Okko and crafted by Sebastian Schildt one of Sweden's leading gold and silver-smiths.
