Orchard Community Energy: Report on achievements

The AGM was informed that the asset management business of Mongoose Energy was acquired by a group of community energy societies including Orchard during the period. It now trades as Bright Renewables. Bright Renewables is a 100% community owned asset management business.

During the year, part of the debt for the project was refinanced by Triodos Bank at a more favourable rate which will improve project returns in the future.

Orchard Community Energy distributed £10,000 to local organisations during the year. Representatives from Abbey Physic Garden, Brogdales Collections and The Halpern Charitable Foundation gave presentations on what they had achieved with the grants awarded by Orchard.
