

SIGNATURE INTERIOR  
DESIGN

# The Detail

**The Signature Design Package is a curation of services that offer you a tailored experience of design for your home. This is a bespoke service, ensuring your needs and wants are met from start to finish. This service is end-to-end meaning you are taken care of by the interior designer from start to finish, who will take care of everything to ensure the project is complete.**

## Inclusions:

- Design consultation with you at the property to discuss all requirements within the space. This is an in-depth consultation that goes deeper than the exploration visit. This is where I really get to know you as the client, more as a person with individual needs so that everything from this point is carefully tailored to you.
- Comprehensive site survey conducted to assess installations and space requirements. This is where I take detailed measurements and survey the room to ensure all details are considered before progressing to the next stage.
- Creation of 2D floor plans for layout, furniture and lighting design. This is where I assess the space to consider all requirements and whether they are suitable for the space. Options of layouts with detailed explanations are given so we can move forward with a design that actually works.
- Development of mood and concept boards. This is the first stage where ideas really come to life. You will see an insight into the first stage of my creative ideas and get a sense of the look and feel of the space.
- Selection of color schemes and styling, which will be narrowed down and shared with you. I will have made the first decisions at this stage, taking away this pain point from you.
- Design concepts - these are a visual presentation of some initial furniture selections, combining them with textures, finishes and accessories so you can see how this design is heading.
- Provision of materials and fabric samples so that you have tangible items to get to understand the project direction.
- Production of 3D drawings showcasing the final space design, including proposed layouts of fixtures, fittings, and finishes, along with lighting details. These will include bespoke furniture pieces which are all fully done in-house by me, ensuring the design brief is closely followed and there is no time wasted in delivering you the space you want.
- A full specification list of all goods and materials required to complete the design, which will require an approval from you as the client before we move onto taking care of the procurement for you.
- Complete procurement service covering sourcing, ordering, receiving deliveries, and managing returns. This also includes the provision of bespoke furniture which is made by a carefully selected team of people who work alongside me to create beautiful furniture pieces that make a statement and are completely tailored by you.
- Installation of all soft furnishings once procurement and works are complete to ensure your space is fully finished and presented to you.
- Preparation of scope of work for contractors who can also be selected by me or you. This excludes bespoke furniture as this needs to be done in-house.
- Revisions to the design as required throughout.

# How to begin your design journey

## EXPLORATION VISIT

This takes place at the client property and we will go through all of the requirements of the project, including some initial ideas discussion, how we agree to proceed, what works are required, budget setting and all pre-project issues. We can discover limitations and address all challenges to overcome.

## What next?

Once the exploration call has taken place, a full Design Proposal for the Signature Design Package will be provided, if we are a suitable partnership.

The Design Proposal will include a full quote and outline the full scope of the project, the fixed cost, the payment schedule and what you will get for each stage. You will receive a presentation video showing what the design process will look like and what will be expected from you during the process. It will highlight the full service given by SA1 Interiors and how we minimise the hassle of renovations and ensure you get the space you want.

You will be required to pay the first deposit installment upon booking, which will be explained in the design proposal.

To proceed, contact Shelley to schedule a project discussion :  
shelley@sa1interiors.co.uk  
07792200364

An exploration visit is essential before proceeding with the design proposal, unless otherwise confirmed in the initial contact.
