Hey Jerry,

Congrats on the launch of Farizon 2.0!

I'm excited to witness the evolution of your company following this impressive milestone.

I know your time is valuable so I'll make this quick.

Now that you've got a new product to promote, you'll no doubt already be looking at setting up a few seminars. Which means lots of time spent on booking flights and hotels for your sales leaders, researching venues, pitching to clients...

The Versatrip.com app makes that simple, managing all your business travel + scheduling needs and storing everything on an easy-access cloud platform.

Your employees will have access to all the information concerning their upcoming business trip, as well as the ability to make notes, message event hosts and guests directly, track when and where their next seminar will take place and more.

On average, **Versatrip.com cuts the time it takes businesses to plan and organize a seminar by 83%.**

Our integrated search features can also reduce transport and accommodation costs by up to **70%** by notifying your admin team whenever venues, hotels, airlines, and train or bus services go on sale.

If you're interested, you can [download a free report](#) detailing all the business features that come with the latest update from our website.

We're currently running a limited-time promotion which includes a free company training session for all your employees from one of our Versatrip tech-xperts.

The promotion **ends this weekend**, so [check out the report](#) and get back to me ASAP when you're ready to get started.

Can't wait to see all the great new things your team comes up with for the Farizon 2.0 campaign!

Talk soon,

Gary Fentelstein
